A satellite map of a city area in Moscow, Russia. The map shows streets, buildings, and a river. A white callout box with a drop shadow is centered on the map, containing the title in green text. A red location pin labeled 'A' is placed on the map near the center of the callout box. Other street names and landmarks are visible, including 'Китай-город', 'Серебряническая наб.', and 'Берниковская наб.'.

Questions about Climate Change?
This year is a BIG year. It's the year when the world will decide what it is really going to do about our changing climate. Such a HUGE issue can often seem complex and overwhelming. So we have created a simple web guide to the who, the where and the why of climate change... and what needs to be done.

350 is the red line for human beings, the most important number on the planet. 350 the safe level of carbon dioxide in the world, and we need to make sure that our solutions to the climate crisis meet the 350 level.

We're planning an international campaign to unite the world around the number 350, and we need your help. The movement to spread that number needs to be beautiful, creative, and undropable. It needs to make sure we take the big, bold, and equitable steps needed to actually solve this crisis.

What we need most right now are on-the-ground examples for how to take the number 350 and show it home, in art, in music, in political demonstrations, in any other way you can imagine. We don't have all the ideas and all the inspiration. We need you to act on yours.

Check out 350.org to get involved, and start planning your action today!

Britain's Got Talent: You'd be forgiven for judging the book by the cover when you meet 47-year-old Susan. Having never married, sharing a flat with her cat has given her a cheeky sense of humour, and even the judges were ready to write her off, until - that is - until she began performing her rendition of 'I Dreamed a Dream' from Les Miserables...

А. Кокорин (WWF Россия): Антропогенное изменение климата есть!

13.10.2009 · [Добавить комментарий](#)

12 октября Первый канал показал <> фильм о том, что антропогенного изменения климата нет. Мнения могут быть разными, но фильм – откровенная подтасовка фактов, считает WWF. В фильме утверждается, что по данным о приземной температуре за XX век нельзя выявить глобальное потепление. Действительно, статистическая значимость роста температуры за прошлый век невелика. Это не открытие, это известный факт, но он совершенно не означает, что нет антропогенного усиления парникового эффекта. Рост концентрации CO₂ – вот болезнь, а температура лишь её симптом. Нельзя по числу кашля за ограниченный период времени, судить о том, болен ли человек туберкулезом. Если взять не XX век, а продлить период до 2009 года, то

A search bar is present with the text 'Поиск на карте' (Search on map) and a link 'Показать параметры поиска' (Show search parameters). Below the search bar are links for 'Проложить маршрут' (Route) and 'Мои карты' (My maps). On the left side, there is a sidebar with a 'Соавторы' (Co-authors) section and an 'Изменить' (Edit) button. The main content of the sidebar is for 'EcoLounge Москва', including a description, website 'ecolounge.ru', view count, creation date, author 'Sasha', and a link to 'Оценить эту карту - Написать комментарий' (Rate this map - Write a comment). Below this is a list of items with blue checkmarks: 'Кафе "Хлеб Насущный"', 'Проход пешком со станции м. Смоленская на', and 'Проход пешком со станции м. Смоленская'. At the bottom of the sidebar is a 'Скрыть' (Hide) button and a list of checked items: 'Не удастся загрузить', 'Earthwatch Expeditions', 'Экологическая карта Москвы', 'О погоде из первых рук', and 'EcoLounge Москва'. The main map area shows a street view of Moscow with a blue route line starting from the 'м. Смоленская' (Smolenskaya) station and ending at a blue pin for 'Кафе "Хлеб Насущный"'. A yellow highlighted area covers the route along 'ул. Нов. Арбат' (Nov. Arbat St). A white information popup is open over the cafe pin, containing the name, update info, a description of the meeting, and links for 'Проложить маршрут' and 'Поиск поблизости' (Search nearby). The map includes various street names like 'ул. Нов. Арбат', 'Композиторская ул.', and 'ул. Арбат'. A scale bar at the bottom left shows 100 meters. The bottom right corner has copyright information: '©2009 Google - Данные карты ©2009 GeoCentre'.

Green Drinks International

Every month people who work in the environmental field meet up at informal sessions known as Green Drinks.

We have a lively mixture of people from NGOs, academia, government and business. Come along and you'll be made welcome. Just say, "are you green?" and we will look after you and introduce you to whoever is there. It's a great way of catching up with people you know and also for making new contacts. Everyone invites someone else along, so there's always a different crowd, making Green Drinks an **organic, self-organising network.**

These events are very simple and unstructured, but many people have found employment, made friends, developed new ideas, done deals and had moments of serendipity. It's a force for the good and we'd like to help it spread to other cities. Contact your local node to get the latest info about coming along.

If there is no Green Drinks near you, you might want to **set up a Green Drinks in your City.**

Выскажи свое мнение.

Тебя услышат мировые лидеры, участвующие в COP15 – важнейшей конференции по вопросам изменения климата за последние десять лет.

Пока нации ищут консенсус, чтобы защитить мир, мы приглашаем тебя опубликовать свою точку зрения о проблеме изменения климата.

Что нужно сделать, чтобы предотвратить глобальное потепление? Как вопрос изменения климата касается тебя? Согласен ли ты с тем, что нужно действовать?

Присылай нам видео, иллюстрирующее твою точку зрения и вопросы.

Лучшие видеоролики будут показаны во время дебатов COP15 CNN/YouTube 15 декабря.

«Дует ветер великих перемен,
который даст вам воображение
или головную боль»

- Екатерина Великая
