Clean & Clear (J&J) – интегрированная кампания

КАНАЛЫ ПРОДВИЖЕНИЯ И ИНСТРУМЕНТЫ:

- брендированный видео-канал на mail.ru
- создание и продвижение игры-викторины
- медиа-кампания на порталах и в блогах с таргетингом на тинейджеров
- поисковая кампания с таргетингом на тинейджеров по поисковым запросам
- social media – посев видео-материалов в блогах, создание и поддержка профайлов героев сериала в социальных сетях

Трекинг результатов

Статистика кампании

Статистика блогосферы

- Статистика медийной кампании (ad serving), статистика поисковой рекламы (Яндекс), статистика по просмотрам видео (Mail.ru, adserving), статистика полученных публикаций (яндекс, мониторинг блогов и СМИ), статистика посещаемого сайта и т.п.

Outline:

- Introduction
- Collision of Data / Technology & Media
- 3 Challenges
 - Big players: “All things to all people”
 - Lack of interoperability
 - Need an online/offline “currency”
- 3 Things to do. What to do if you....?
 - are an agency
 - are an advertiser
 - are an entrepreneur

Time and Effect Exponentially
Increases

Every region with one-off solutions and silos!

And it only has some of the information you need

Think "Consumer Centric" not "Campaign Centric"

Ad Display

Search Organic Paid

Web Analytics

Email Campaigns

Customer Sales data

Dashboard and Reporting

Beliefs

- Consumer Centric data model
- Data gets smarter with every touch point with the brand
- Leverage industry standards. Integrate instead of Build
- Collecting data, and making it transparent (reporting) is only step one. Turning the data into knowledge and actions is the real objective

Challenges

- AOL, Google, Yahoo, MSN:
 - For the advertiser?
 - Are they a publisher?
 - Are they an exchange?
 - Yes to all ! – creates a challenge
- Lack of interoperability. Need more help from trade associations. Goal: Open source / open architecture.
- Need more innovation around connecting online and offline.

What to Do:

- If an Agency: Get data & technology savvy FAST! Build talent, embrace technology.
- If an Advertiser: For every initiative, think about the data. Own it. Aggregate it. Leverage it.
- If an Entrepreneur: Start companies! Massive opportunity!
