

The background of the slide is a composite image. The top half shows a dark, starry sky with a large, glowing blue sphere, possibly representing Earth or a planet, partially obscured by wispy white clouds. The bottom half shows a bright, shimmering sea at sunset or sunrise, with the sun's reflection creating a wide, bright path across the water. The overall color palette is dominated by blues, whites, and yellows.

Физический мир, в котором мы живём

**Дискуссионный клуб
для 10-х классов**

An abstract graphic on a dark blue background. It features a central bright blue point from which several green, glowing, teardrop-shaped forms radiate outwards. Two blue, cone-like structures with wavy, golden-yellow tips also radiate from the center, one pointing towards the top right and the other towards the bottom left. Thin white lines and circular orbits are scattered around the central area, suggesting a complex, dynamic system or a network of connections.
