GLOBAL SERIALS INTELLIGENCE

Basic eResource Management and Access Tools

Why 360 Core?

- Электронные ресурсы являются стремительно растущей частью библиотечных коллекций

- Пользователям нужна простая и быстрая связь с ресурсами
  - Пользователи не могут просмотреть все имеющиеся базы данных
  - А потому постоянно обращаются к библиотекарям с просьбами заказать издание по МБА, что является дорогостоящей и отнимающей много времени услугой.

- Библиотеки должны эффективно управлять ресурсам
  - Трудно проанализировать ценность отдельных баз данных
  - Очень мало информации для принятие обоснованного решения по приобретению какого-то ресурса у комплектаторов.

360 Core Solves the Problem
