Health InterNetwork Access to Research Initiative

Using Journals through HINARI
Journal abstracts are available to all users, without registration. Registered HINARI users have full-text access to journals. Non-HINARI users may still have full-text access through this menu, if their institutions subscribe to the journals.

Finding Journals
From this page you can find journals alphabetically by title or by subject (or by language, available soon). Detailed searching for articles can be done through PubMed (Medline database) or by visiting the websites of individual publishers.

Find Journals by title
Click on a letter for an alphabetical list of journal titles starting with that letter. Select a journal title to go directly to that journal.

ABCDEFGHIJKLMN OPQRSTUVWXYZ

PubMed

The screenshot shows the Entrez PubMed website in a Microsoft Internet Explorer browser window. The address bar displays <http://www.ncbi.nlm.nih.gov/entrez/query.fcgi>. The page features the NCBI logo on the left and the PubMed logo with the National Library of Medicine (NLM) logo on the right. Below the logos is a search bar with a dropdown menu set to 'PubMed' and a search input field containing the text 'for'. To the right of the search bar are 'Go' and 'Clear' buttons. Below the search bar is a navigation menu with options: Limits, Preview/Index, History, Clipboard, and Details. On the left side of the page, there is a vertical navigation menu with sections: 'About Entrez' (Text Version), 'Entrez PubMed' (Overview, Help | FAQ, Tutorial, New! Noteworthy, E-Utilities), 'PubMed Services' (Journals Database, MeSH Database, Single Citation Matcher, Batch Citation Matcher, Clinical Queries, LinkOut, Cubby), and 'Related Resources' (Order Documents, NLM Catalog, NLM Gateway, TOXNET, Consumer Health, Clinical Alerts, ClinicalTrials.gov, PubMed Central). The main content area contains a list of search tips:

- Enter one or more search terms, or click [Preview/Index](#) for advanced searching.
- Enter [author names](#) as smith jc. Initials are optional.
- Enter [journal titles](#) in full or as MEDLINE abbreviations. Use the [Journals Database](#) to find journal titles.

Below this is a paragraph: 'PubMed, a service of the National Library of Medicine, includes over 15 million citations for biomedical articles back to the 1950's. These citations are from MEDLINE and additional life science journals. PubMed includes links to many sites providing full text articles and other related resources.' There are two highlighted boxes: 'Bookshelf Additions' with a small image and text about 'Molecular Biology of the Cell, 4th Ed. and The Genetic Landscape of Diabetes' being available for interactive searching on the Bookshelf; and 'MeSH Database Updated' with text stating 'Over 140,000 Supplementary Concept Records (substance names) have been added to the MeSH database so the database now contains the full MeSH vocabulary. MeSH terms can be used in PubMed searches.' A blue banner reads 'New Global NCBI Search Engine' with a text box below it: 'NCBI's growing number of Entrez databases can now be searched at once! [go](#)'. At the bottom right, there are links: 'Write to the Help Desk', 'NCBI | NLM | NIH', 'Department of Health & Human Services', 'Privacy Statement | Freedom of Information Act | Disclaimer'. The browser's taskbar at the bottom shows the Windows start button, several open applications including 'Department of a...', 'CorelDRAW 11 - [...]', 'Entrez PubMed - ...', and 'Microsoft PowerP...', and the system tray showing the time as 10:40.

Электронный журнал «Acta Oncologica»

Бесплатные медицинские журналы (www.freemedicaljournals.com)

The screenshot shows the website 'FreeMedicalJournals.com' in a Microsoft Internet Explorer browser window. The browser's address bar displays 'http://www.freemedicaljournals.com/'. The website's header features the logo 'FreeMedicalJournals.com' with the tagline 'Promoting free access to medical journals'. Below the header, there is a navigation menu with links for 'Home', 'HIV Medicine', 'Free Amedeo', 'Books', 'Journal Alert', and 'Medicine on Earth'. The main content area is divided into two columns. The left column contains a sidebar with the text '> 1380 Journals, sorted by:' followed by two sections: '1. Specialty' and '2. Title'. The '2. Title' section lists languages: English (A-B, C-H, I-J, L-Q, R-Z), French, German, Spanish, Portuguese, and other languages. Below this is a 'Journal Alert About' link. The right column contains a subscription prompt for 'free AMEDEO 7', a paragraph about the importance of free medical journals, a link to the 'Journal Alert', and a section titled 'Free journals, impact factor' listing journals with their impact factors: CA (35,933), Journal of Clinical Investigation (14,118), BMJ (4,994), MMWR (3,688), Endocrine-Related Cancer (3,579), and Emerging Infectious Diseases (3,560). Below this is a section 'Journals sorted by specialty' and another section 'Free one to six months after publication' listing journals like New England Journal of Medicine, JAMA, Journal of Cell Biology, American Journal of Human Genetics, and Molecular and Cellular Biology.

Journal Alert
About

Have you subscribed to **free AMEDEO 7**?

Free Medical Journals - Over the next few years, many important medical journals will be available online, free and in full-text. The access to free scientific knowledge will have a major impact on medical practice and attract Internet visitors to these journals. Journals that restrict access to their Web sites will lose popularity.

If you wish to be informed about new free journals, you may subscribe to our [Journal Alert](#). The Free Medical Journals Site is dedicated to the promotion of free access to medical journals over the Internet.

Comments: [British Medical Journal](#), [Science](#)

Использование кокрановской библиотеки при создании программ позволяет включать в учебную программу вмешательства, эффективность которых научно доказана, и модифицировать программы по мере обновления данных

ГЛАВНОЕ ОТЛИЧИЕ КОКРАНОВСКОЙ БИБЛИОТЕКИ ОТ ДРУГИХ БАЗ ДАННЫХ В ТОМ, ЧТО ИНФОРМАЦИЯ В НЕЙ:

- **тщательно отобрана** из разноязычных источников: в нее входят только контролируемые и/или рандомизированные исследования
 - **обобщена** (в виде систематических обзоров и мета-анализов)
-

**КОКРАНОВСКАЯ БИБЛИОТЕКА
имеет четыре базы данных**

- Базу данных систематических обзоров
 - Базу рефератов эффективности лечебных вмешательств
 - Регистр контролируемых клинических испытаний
 - Базу работ по методологии обзоров
-

**Кокрановская электронная
библиотека доступна на:**

- CD-ROM
 - Online – MedLine (gateway.ovid.com)
 - Отдельные специализированные базы
-

КОКРАНОВСКАЯ БИБЛИОТЕКА на CD. Результат поиска “heart attack”

The screenshot displays the interface of The Cochrane Library 2003, Issue 3. At the top, the search bar contains the query "heart attack" and shows 190 hits. The main content area lists 20 complete reviews, each with a checkbox and a brief description of the topic. The reviews cover various medical interventions such as community smoking interventions, CPAP for sleep apnea, dietary advice for cholesterol, and treatments for heart failure, stroke, and diabetes. On the right side, there is a sidebar with the Cochrane Library logo, the text "the best single source of reliable evidence about the effects of health care", and a list of links including "About the Cochrane Library", "Using The Cochrane Library", "Comments and feedback", "Technical support", "Reviewers' Handbook", "Reviewers' Handbook (Glossary)", and "Release notes". The bottom of the screen shows a Windows taskbar with the Start button and several open applications.

[heart attack]

(heart next attack) - 190 hits

The Cochrane Database of Systematic Reviews (27 out of 3058)

Complete reviews (20 out of 1754)

1. Community interventions for reducing smoking among adults.
2. Continuous positive airways pressure for obstructive sleep apnoea.
3. **Update** Dietary advice given by a dietitian versus other health professional or self-help resources to reduce blood cholesterol.
4. Dietary treatment for familial hypercholesterolaemia.
5. Digitalis for treatment of congestive heart failure in patients in sinus rhythm.
6. Dipyridamole for preventing stroke and other vascular events in patients with vascular disease.
7. Effect of the treatment of Type 2 diabetes mellitus on the development of cognitive impairment and dementia.
8. Exercise-based rehabilitation for coronary heart disease.
9. Fish oil in people with type 2 diabetes mellitus.
10. Information provision for stroke patients and their caregivers.
11. Low molecular weight heparins versus unfractionated heparin for acute coronary syndromes.
12. **Comment** Mass media interventions: effects on health services utilisation.
13. Oral anticoagulants versus antiplatelet therapy for preventing further vascular events after transient ischaemic attack or minor stroke of presumed arterial origin.
14. Pharmacotherapy for hypertension in the elderly.
15. Pharmacotherapy for hypertension in women of different races.
16. Prostacyclin and analogues for acute ischaemic stroke.
17. Reduced or modified dietary fat for preventing cardiovascular disease.
18. Rofecoxib for rheumatoid arthritis.
19. School-based programmes for preventing smoking.
20. Vasoactive drugs for acute stroke.

Пример систематического обзора

The screenshot displays the Cochrane Library interface. On the left, a search bar contains the text 'heart attack' with a 'Go' button. Below the search bar, there are navigation options: 'View selected', 'Unselect all', and 'Save selected'. A list of 17 search results is shown, with the 12th result, 'Dipyridamole for preventing stroke and other vascular events in patients with vascular disease', highlighted. The main content area shows the title of the review, the authors 'De Schryver ELLM, Algra A, van Gijn J', and the date of the most recent substantive amendment: '25 February 2002'. Below this, there is a citation for the review. The 'ABSTRACT' section is divided into three parts: 'Background', 'Objectives', and 'Search Strategy'. The 'Background' section states that patients with transient ischaemic attacks (TIA) and minor ischaemic strokes are at risk of serious vascular events and that aspirin offers only modest protection. The 'Objectives' section lists two goals: to assess the efficacy of dipyridamole versus control in the secondary prevention of vascular events in patients with vascular disease, and to assess the safety of dipyridamole versus control in the secondary prevention of vascular events in patients with vascular disease. The 'Search Strategy' section describes the search process, including the use of the Cochrane Stroke Group Trials Register and other relevant Cochrane Groups. The 'Selection Criteria' section describes the inclusion criteria for the review, including randomised long-term secondary prevention trials with concealed treatment allocation, treatment for > 1 month, starting within 6 months after presentation of an arterial vascular disease, and the absence of other antiplatelet drugs. The 'Data collection and analysis' section describes the methods used to collect and analyze the data, including the use of two reviewers to select trials and extract details of randomisation methods, blinding of treatments and assessments, and the use of intention-to-treat analysis.

ЭЛЕКТРОННЫЕ БИБЛИОТЕКИ УНИВЕРСИТЕТОВ.

Виртуальный госпиталь Университета Штата Айова (www.vh.org)

The image shows a screenshot of a Microsoft Internet Explorer browser window displaying the Virtual Hospital website. НАШ ИНСТИТУТ

Первый Ташкентский Государственный Медицинский Институт был создан в 1918 году и на сегодняшний день является одним из ведущих ВУЗов республики Узбекистан, а также одним из крупнейших научно-исследовательских центров. На факультетах нашего института обучается около 3000 студентов по программе врачей общей практики, 200 клинических ординаторов (программа магистратуры) более 100 аспирантов и докторантов. Институт занимается подготовкой специалистов лечебного дела и стоматологов. В институте работают ведущие специалисты по хирургии, терапии, акушерству и гинекологии, реанимации, интенсивной терапии и анестезиологии, стоматологии, а также специалисты по биохимии, фармакологии, морфологии и другим медико-биологическим дисциплинам, которые помимо преподавательской работы занимаются научно-исследовательской деятельностью.
