Revision 18492
Author ralph
Date 2009-10-06 06:48:15 -0700 (Tue, 06 Oct 2009)

Log Message

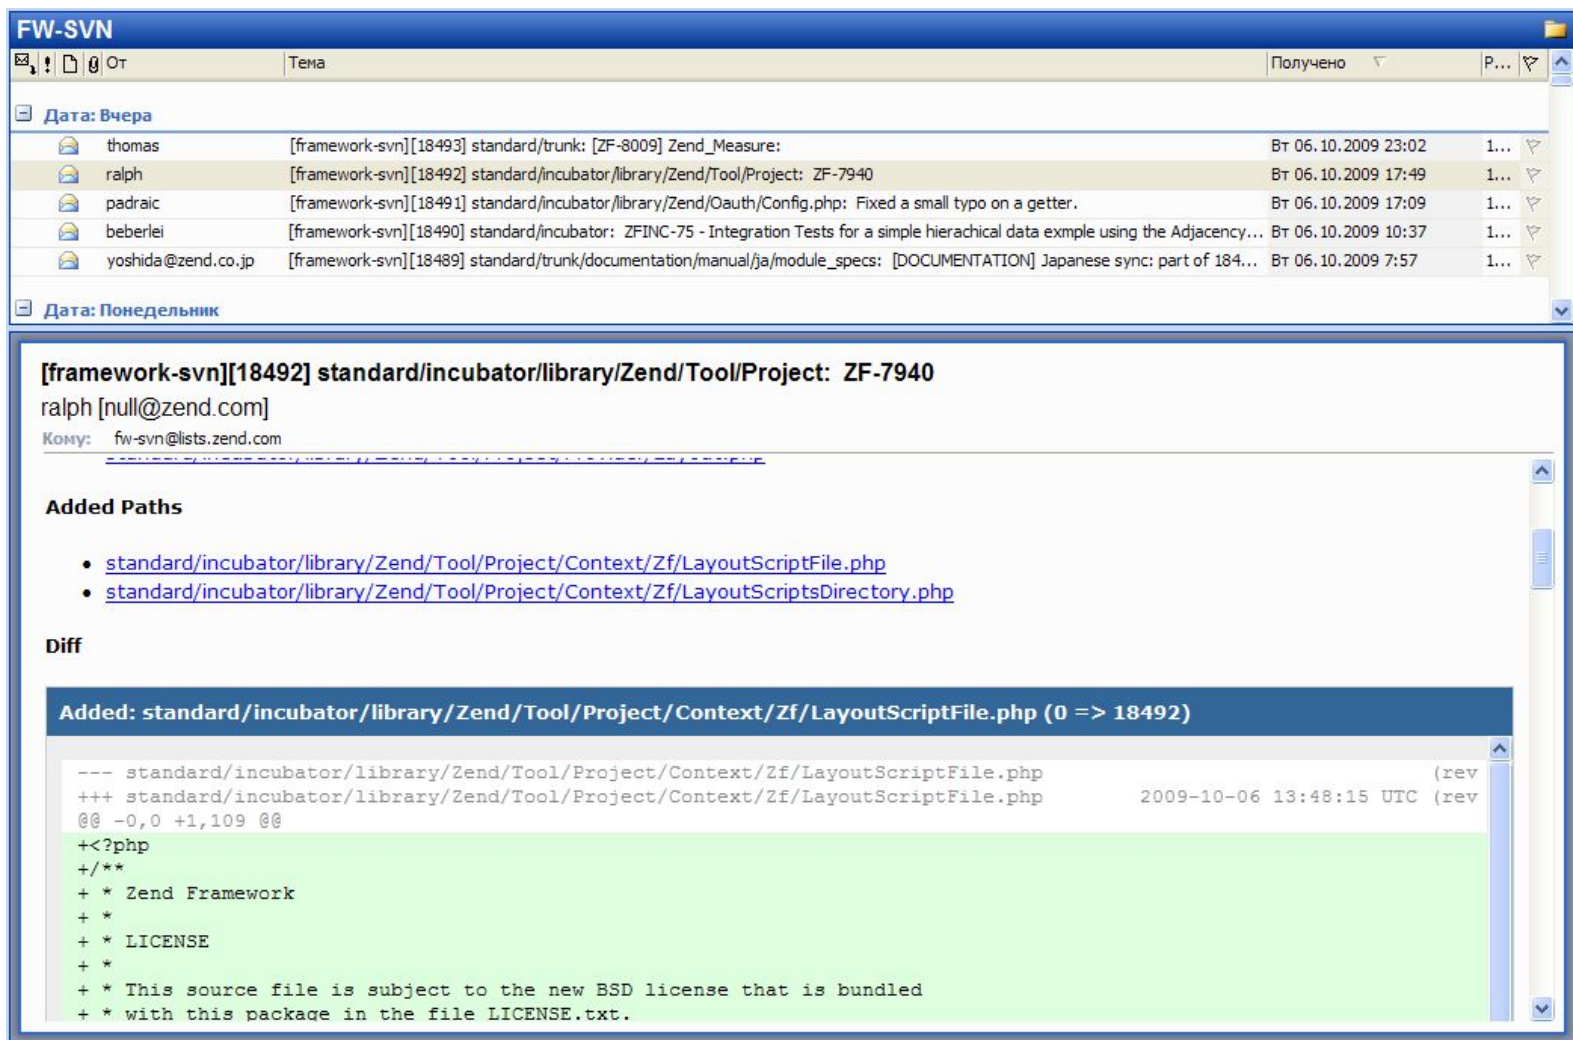

```
ZF-7940  
- Layout support committed (enable layout)
```

Modified Paths

- [standard/incubator/library/Zend/Tool/Project/Provider/DbAdapter.php](#)
- [standard/incubator/library/Zend/Tool/Project/Provider/Layout.php](#)

Added Paths

FishEye notifications

The screenshot shows a notification window titled "FW-SVN" with a standard email-like header. The main content is a list of recent commits, followed by a detailed view of a specific commit (ZF-7940) by user ralph. The detailed view includes the commit message, a list of "Added Paths", and a "Diff" section showing the addition of a new file with its license information.

JIRA issue (пример)

The screenshot shows a JIRA issue page in a Mozilla Firefox browser. The browser's address bar displays the URL: `http://framework.zend.com/issues/browse/ZF-7853`. The page title is "[#ZF-7853] Problem with highlightMatches() function - Zend Framework Issue Tracker".

The JIRA interface includes a navigation menu with options: HOME, BROWSE PROJECT, FIND ISSUES, CREATE NEW ISSUE, and ADMINISTRATION. The user is identified as Alexander Veremyev.

Issue Details:

- Key: ZF-7853
- Type: Bug
- Status: In Progress
- Priority: Major
- Assignee: Alexander Veremyev
- Reporter: Michael Casey
- Votes: 0
- Watchers: 1

Available Workflow Actions:

- Stop Progress
- Resolve Issue
- Close Issue

Operations:

- Assign this issue
- Attach file to this issue
- Attach screenshot to this issue
- Clone this issue
- Comment on this issue
- Create sub-task
- Delete this issue
- Edit this issue
- Link this issue to another issue
- Move this issue
- Convert to sub-task
- Voting

Issue Information:

- Component/s: Zend_Search_Lucene
- Affects Version/s: 1.9.1
- Fix Version/s: None
- Time Tracking: Not Specified

Tags: highlightMatches search-lucene Html EDIT

Participants: Alexander Veremyev and Michael Casey

Description:

Specific example of error follows:

I have a .pptx document that contains this text string: "... Data Protection Module Karen Brown, DPO Johnny McSweeney ...". The document appears to be indexed correctly.

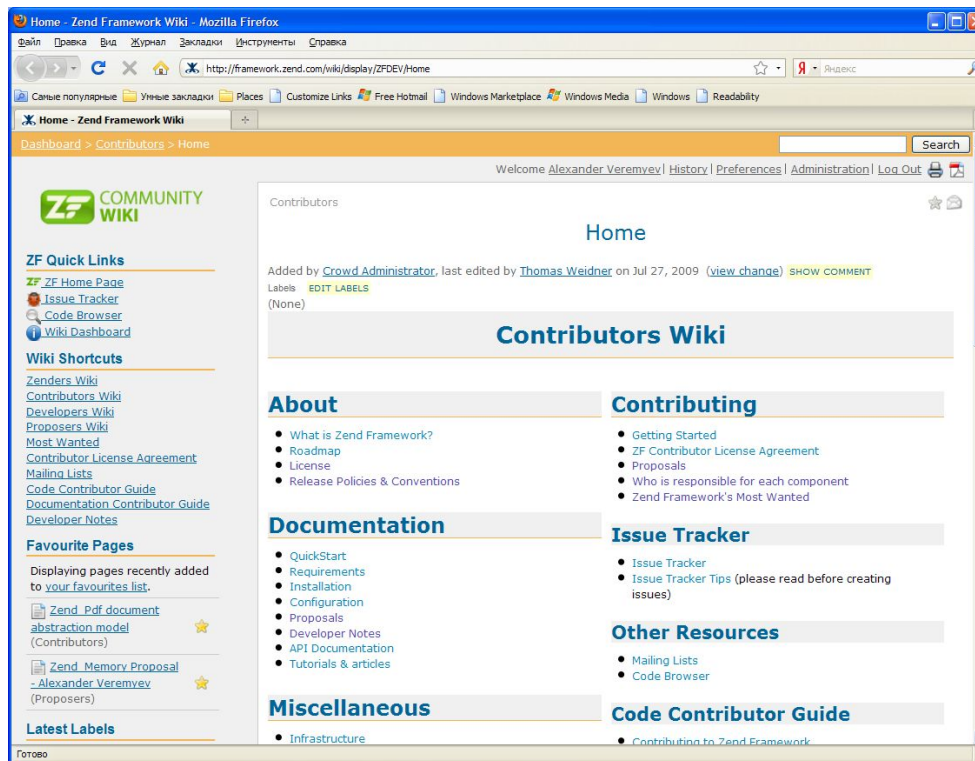

Using both quoted and un-quoted strings, if I do a search for "Karen" or "Karen Brown", the results come back fine, and using the highlightMatches() function, the keywords are highlighted. However, if I do a search for "Module Karen Brown" I get the following error:

```
[Notice] Trying to get property of non-object
POST /SilverStripe/search-lucene/
Line 293 in D:\wamp\www\ZendFramework-1.9.1\library\Zend\Search\Lucene\Document\Html.php
Source
```
