- Положительный и позитивный дух работ - основная тенденция фестиваля в этом году
- Мир возвращаются к семейным ценностям
- В этом году было много зеленых работ, благотворительности, туризма.
- Гламура, секса, удовольствий почти нет среди работ победителей.
- Среди победителей были работы, которые были бы не понятны украинскому потребителю

- Мало работ Украина подала на фестиваль.
- Мало членов жюри, понимающих или знающих заранее наши работы. В каждом составе жюри обычно по 4-5 американцев, столько же западных европейцев, представлена равномерно латинская Америка, Япония, Австралия. Со всей же восточной Европы, включая Россию, в лучшем случае 1 человек.
- Нужно уметь угадывать настроение, господствующее в Каннах, чтобы не выбиться из него излишне жесткой или наоборот доброй работой.

Love, betrayal and great offers.

Colors for every fantasy.
Sirena

Selection of肥皂肥皂 The main war the network has in the Dominican Republic.

BRIEF
The 2008 financial crisis has had a strong impact in Dominican retailers, forcing businesses to cut down expenses and maximize budgets; making more emphasis in the offers than in branding advertising. Which is why a retail war started taking place throughout all media including radio, press inserts and TV, the highest populated medium in the country, where bumper commercials were used the most to communicate the offers. The result was so boring and monotonous that it inevitably induced zoning.

IDEA
We wanted to find a more entertaining and interesting way to communicate the weekly specials through TV. Using a unique media negotiation with the channels that broadcasted the top rated soap operas we were able to insert a 30 second long way of ensuring the viewer's offers: a superimposed banner. A week prior to the air date all the soap opera's episodes were analyzed and studied, looking for articles that looked like the ones in the offer for the upcoming week. During the broadcast, at any given moment the owners received through funny messages within the context of the actions and the article that was being promoted.

RESULTS
More than 200 banners were made with a range that reached the national spectrum, receiving a lot of free press. In the ranking of most admired companies compiled in 2008, La Sirena rose with a 50.9%. Another study showed the buying preference and its rise to 42.9% and closed the year with a 50% of 75%.

BE THE NEWS / NISSAN / NISSAN / LEW'LARA\TBWA Sao Paulo, BRAZIL

step one

Nissan Be the news.

Challenge

Nissan arrived late in Brazil. We had to jump-start the brand's relationship with Brazilian drivers and introduce its global tagline: Shift.

Medium

One of Brazil's largest papers, and the main source for people buying cars.

Creative Execution

For the very first time, the newspaper ran a blank front page, asking readers to shift and come up with their own frontpage story. On the internet, they could write their headlines and upload their photos. The next Sunday, every subscriber was front page news. On their doorsteps, they got their paper with the cover they had made themselves. Thousands won the lottery, families got together again, children won olympic medals and Nissan made it to the front page two Sundays in a row.

step two

THE WORLD IS NOISY ENOUGH / AEG ELECTROLUX / WASHING MACHINES / ZENITHOPTIMEDIA INTERNATIONAL London, UNITED KINGDOM

Challenge
To differentiate AEG as what most consider as "a boring category" and to give a noteworthy value to the launch of its Silent Laundry range.

Results
Brand tracking showed that noise became a key criteria for buying washing machines and consumers were 35% more likely to buy an AEG product. The campaign prompted vast PR coverage activating passionate online debate with 20m views of blog posts.

Noise levels from posters streamed in real time into noise awareness sites

City	Noise Level
London	55db
Madrid	75db
Milano	60db
Moscow	55db

Solution
Engage consumers by credibly highlighting noise pollution as an issue of modern life. Giant "decibel posters" in key European cities displayed noise levels in real time. These posters were all linked and the live results could be compared online.

Walmart Leveraging scale to save the Earth

Problem:
Need to drive sales of sustainable products – but Mom believes saving the Earth is too overwhelming to do alone

Solution:
Show Mom she is not alone by quantifying the impact of 200 million Walmart shoppers making small changes together

Results:

- Doubled our sales goal for CFL light bulbs – the equivalent of taking 3 power plants off the electrical grid
- Moms used our widget to plant 470,000 virtual trees – which we honored by planting 40,000 real ones

I pledge to replace 1 light bulb in my house with a CFL bulb.

It's time to stop using incandescent bulbs. They are so inefficient and so wasteful. I'm going to replace one in my house with a CFL bulb. I'll save money and help the environment.

Save on foods you enjoy every day, while benefiting the world tomorrow.
