Рынок поиска США (июль 2007)

Эволюция алгоритмов

1. meta name="keywords"
2. <h1>, и страничные факторы
3. **Ссылки – венец эволюции алгоритмов**

Google™ – апдейты алгоритма

Ноябрь 2003 – Florida (ссылочные фильтры)

Ноябрь 2005 – Jagger (TrustRank)

Февраль 2006 – Big Daddy (Supplemental Results)

Предпочтения поисковиков

- ссылочные данные

- больше внимания страничным факторам

- слабые ссылочные фильтры

Что дальше?

Огромные ресурсы

Мощные алгоритмы

Доминанция естественных методов

Стратегия «Быстрый результат»

- ✓ Упор на работу с проектом извне
- ✓ Обработка ядра средними ссылками

+

- Просто
- Быстро
- Экономично (группировка проектов)

-

- Зависимость от алгоритмов
- Постоянная поддержка ссылками

Стратегия «Стабильность бизнеса»

«Проще создать идею, достойную распространения...

...нежели раскручивать что-то недостойное упоминания»

Аарон Уолл

Стратегия «Стабильность бизнеса»

- ✓ Активная работа на стороне сайта
- ✓ Взаимодействие с заказчиком
- ✓ Участие в сообществе

+

- Высочайшая стабильность
- Ссылки с трафиком
- Новые бизнес-связи

-

- Высокие требования к исполнителям
- Осведомленность заказчика о сути SEO

Title	Date
Charming Python: Python elegance and warts, Part 2 In this series of two articles, David discusses the non-obvious features and misfeatures that have been added to the last several Python versions, with the goal of helping part-time Python programmers uncover the gems while avoiding the pitfalls. This installment adds attributes and methods, descriptors, and properties to the discussion.	29 Aug 2007
Tip: Read News Industry Text Format (NITF) files with PHP The News Industry Text Format is an XML-based format used by the news industry to encode and share the content of news articles. PEAR's XML_NITF package provides an extensible API to read and parse NITF-formatted files, making it easy to extract bibliographical information and article content for use in any PHP application.	28 Aug 2007
The Geronimo renegade: Using integrated packages: GlassFish JSTL 1.2 and Apache Geronimo 2.0 The Apache Geronimo team has successfully implemented the exciting new Java Platform, Enterprise Edition (Java EE) 5.0 specification. One of the many notable features of Java EE 5 is the new Java Standard Tag Library (JSTL) 1.2 specification. The key to JSTL 1.2 is the unified expression language, which lets you use the best features of JSTL alongside the JavaServer Faces (JSF). In this installment, the renegade covers the importance of JSTL 1.2 by examining the history of Java Web technologies and how the Geronimo team has leveraged the GlassFish JSTL 1.2 implementation to add JSTL 1.2 support to Geronimo.	28 Aug 2007
Speed up your Ajax applications while dodging Web services vulnerabilities	28 Aug 2007

[Make Donation](#)

[Google AdSense Charts](#)

Generate all sorts of nifty charts with your AdSense CSV data export (requires a Google AdSense account of course).

[Google AdSense Sandbox](#)

This tool will show you what Google AdSense ads will be displayed f webpage on the Internet.

[Back Link Tracking Tool](#)

Track backlink fluctuations to your web pages historically.

Установление партнерских связей

Затраты:

- ✓ 50 писем потенциальным бизнес-партнерам
- ✓ 2 часа времени

Результат:

- ✓ Партнерство с компанией Comodo.com
- ✓ 1 ссылка PR7, ~10 ссылок PR5

Внедрение в тематическое сообщество

- ✓ Форумы
- ✓ Социальные сети (Digg, Reddit, Netscape...)

Digg

The screenshot shows the Digg website interface. At the top, there is a navigation bar with the Digg logo, links for "Join Digg", "About", and "Login", and a search bar labeled "Search Digg...". Below this is a secondary navigation bar with tabs for "All", "News", "Videos", "Podcasts", and "Customize", along with "Popular" and "Upcoming" buttons. A "Popular Topics" section lists categories like "World & Business", "Technology", "Science", "Entertainment", "Gaming", "Sports", "Offbeat News", and "Comedy Videos".

The main content area is titled "News & Videos" and includes sorting options: "Most Recent", "Top in 24 Hr", "7 Days", "30 Days", and "365 Days". A green banner encourages users to "Join now" to share important content.

The news feed contains three items:

- 120 diggs:** "When buying a sex toy as a joke goes too far..." from bash.org. Description: "A tale of humiliation from the bash.org forums that this writer will never forget for the rest of his life. 'I probably sat there for an hour, silently with my plastic lover, pondering my existence.'" More... (Offbeat News). 11 Comments, Email, Bury, MIBabyMan — made popular 3 min ago.
- 203 diggs:** "Australia to Nintendo: Knock it off!" from aussie-nintendo.com. Description: "Super Paper Mario delay: 7 months. Metroid Prime 3? 2 months! Galaxy and Smash Brothers? who knows! A report on the delays of Australian / NZ Nintendo's Wii software releases, shows how we are getting screwed over by Nintendo. We pay much more (20 extra dollars), and get it later. Digg, help us take this message to Nintendo: Knock it off!!! More... (Nintendo Wii)". 36 Comments, Email, Bury, misterseuz — made popular 33 min ago.
- 145 diggs:** "This entry describes how a guy made a \$500,000 profit on eBay" from asawmy.blogspot.com. Description: "This entry describes how a guy took advantage of a listing typo to buy and resell an item on eBay for a \$500,000+ profit. More... (Tech Deals)". 38 Comments, Email, Bury, Espada01 — made popular 53 min ago.

On the right side, there is a "Top 10 in All To" list:

- 1874 An Honest
- 1754 50 Year Pi (Amazing)

At the bottom right, there is a cartoon mascot of a yellow creature with red spiky hair, wearing a red suit and a blue tie.
