About Prayer

Prayer is a your personal praying wall where you can write instant short messages (140 characters max). Your praying partners can see, read and pray about it.

PRAYTER

Prayer functionality

It's very simple to use.

Prayer is a short instant message that can consist of 140 characters maximum.

Urgent prayer

Urgent prayer - is a prayer which is important. It immediately delivered to your prayer partners email (mobile phones in future)

PRAYER

Prayer functionality

Prayer can be more
Interactive.

I pray button

When you read your friend prayer update and you are joining him in prayer you can click I pray button.

Got answer

Once you get answer from God for specific need, click Got answer button and you mark that need was answered Also you notify people who prayed for that to rejoice together.

Praise God

It's Prayerter Like button

Pray in groups

You can create, run and participate in groups. Collective prayer is a big power.

Public groups

Public - visible for everyone and good if you want to create a public group to people join you in prayer.

Private groups

Private - you should be accepted by group administrator, such a group type will work well for ministries, organizations, churches.

Hidden groups

Hidden - group which is not visible in search and you can be invited to group by administrator, that's group is great for groups of people who want to pray for something and not be visible for others.

We are different

Prayer is not marketing tool, it's for personal and spiritual use.

Networking with people you know and trust

The essence of Prayer

Pray with people you trust

The essence of Prayer is not the number of people on your network, but in relationship with God and the people whom you know and trust. Pray with those who you care about and those who care about you.

Social connect

Connect your Facebook and Twitter accounts with Prayer. Invite friends from there to join your in prayer.

Publish prayers to Facebook and Twitter

Your prayers can be published on Facebook and Twitter (all or selected). Use your Facebook friends list to invite to join you on Prayer.

*Its very common question
we have been asked*

How Prayer is different from Twitter?

It's different by the vision
and goal, as well as some
functionality.

Prayer goal is to help you
build network of spiritual
friends to support each
other on the daily basis.

An example provided by user

Twitter

In Twitter I have 156 microblogs I follow and 60 who follow me. From all that people I know only 23 persons (5%). 2 (0.5%) of them who really know my life and care about me. I read twitts only when I write my. Most of twitts I just ignore.

Prayer

I have 16 people I praying for and 15 who praying for me. I read most of the prayters, especially urgent ones. I usually pray for them. From 16 people I know in person 14 and trust them all. For more specific prayer needs I run the prayers groups, where prayters are visible to group members only.

All tongues pray

We want people of all nations support each other in prayer on their own languages.

Help with translation

We need a volunteer help for prayter translation. We have a very comfortable admin form for translation, that's fast and easy.
