Simple Search: Search ebrary [Advanced](#) [All Subjects](#)

Welcome!

Created with DASH! This site is one of a series of searchable information centers that ebrary employees are creating on topics that are important to us. We understand that while there is a wealth of information on these topics available on the Internet, it is often difficult to find and search the data you need, especially across multiple sources.

To build this site, we gathered public domain PDF documents from government websites, and converted some information from web pages, Word documents, and other file types into PDF by "printing to PDF." We then uploaded them into the ebrary system, which converts PDF documents into highly interactive, searchable databases, using our new DASH! feature and other ebrary services.

We are proud to put our technology to use in a way that can benefit people worldwide, and we hope that you find it a valuable resource.

We welcome any comments or suggestions by emailing dp@ebrary.com.

The screenshot shows a web browser window displaying the Ebrary search results for the query "earthquake OR earthquakes". The page is titled "Natural Disaster and Extreme Weather Searchable Information Center". The search results show a document titled "Why Do Earthquakes Occur in the Bay Area?". The document's table of contents is visible on the right side of the page.

Why Do Earthquakes Occur in the Bay Area?

The San Francisco Bay Area has had and will continue to have earthquakes because it has at least eight earthquake faults (black lines on map) that can cause serious damage.

- Large damaging earthquakes happened here in 1868, 1906, and 1989; smaller damaging earthquakes occur more often.
- Scientific research shows that, more likely than not, a big quake will happen here in the next 30 years.
- Strong ground shaking will cause most of the damage. The map shows that most of the Bay Area will experience strong shaking.
- Areas of soft soil, mainly near the bay, shake harder than areas of hard rock.
- Unlike some earthquakes that occur beneath the ocean, Bay Area earthquakes are not expected to cause significant tsunamis. However, distant

The main content area is divided into several sections:

- Welcome to ebrary's Searchable Information Center on Cyber Bullying!**

According to the National Crime Prevention Council, 43% of teens have been the victims of cyber bullying in the past year.

To help parents, educators, and others better understand, prevent, and take action against this growing concern, ebrary is subsidizing a collection of e-books on cyber bullying. Additionally, ebrary employees have uploaded a number of government documents from the Pew Internet & American Life Project, U.S. Department of Justice, and other organizations with DASHI (Data Sharing, Fast) – a do-it-yourself e-publishing feature of many ebrary products.

We encourage organizations to contribute additional materials as long as they have copyrights. If you are interested in contributing, please email tish.wagner@ebrary.com for a complimentary DASHI account.

At the bottom of the PDF content, there is a photograph of a red suitcase with gold-colored latches. On the right side of the PDF, there is a vertical blue bar with the text 'AL GUIDE' written vertically.

The Windows taskbar at the bottom shows the 'Пуск' button and several open applications, including 'в добрые руки — Янд...', 'http://emergencynu...', 'Total Commander 6.0 - ...', 'ресурсы март 2011 - Ми...', and 'Open Access Screens - ...'. The system clock shows '12:23'.

Springer Images www.springerimages.com – регулярно обновляемая база изображений, включает более 2 800 000 рисунков, фотографий, диаграмм, таблиц и графиков, опубликованных в книгах и журналах издательства Springer. Все изображения содержат ссылки на источник.

Springer Protocols www.springerprotocols.com - регулярно обновляемая электронная коллекция из 22 000 протоколов лабораторных исследований в области наук о жизни (биохимия, молекулярная биология, фармакология, биоинформатика, радиология, генетика, иммунология).

The screenshot shows the Springer Protocols website interface. At the top, there is a navigation bar with links for 'ABOUT US', 'RSS', and 'HELP'. Below this is a main header with the 'Springer Protocols' logo and the Springer logo. A welcome message reads: 'Welcome. Sign in [here](#). New user? Register [here](#).' The main content area is divided into several sections:

- Upload a Protocol:** Upload your own protocols for personal use.
- Protocol Alert:** Receive e-mail notifications about new content on SpringerProtocols.
- Video Protocols:** View our video protocols. Call for video protocols.
- Comments:** Read comments by other users and add your own.
- Favorites:** Save your favorite protocols to your My Protocols area.
- RSS:** A link to the site's RSS feed.
- Search Protocols:** A search bar with a 'Search' button and a link to 'Advanced Search'.
- Browse by Subject:** A list of subjects including Biochemistry, Biotechnology, Cell Biology, Imaging/Radiology, Infectious Diseases, Molecular Medicine, Pharmacology/Toxicology, Protein Science, Bioinformatics, Cancer Research, Genetics/Genomics, Immunology, Microbiology, Neuroscience, and Plant Sciences.
- Most Popular Protocols:** A list of popular protocols, including 'Generating Murine Osteoclasts from Bone Marrow' and 'Mining for SNPs and SSRs Using SNPServer, dbSNP and SSR...'.
- Inside SpringerProtocols:** A sidebar menu with links to 'Source Title List', 'New Protocols', 'Free Protocols', 'Popular Protocols', 'Tour', 'For Contributors/Editors', and 'For Library Admins'.
- exemplar:** A promotional banner for 'exemplar words in context' with a 'beta' label and the text 'see how a particular term or'.

The browser window shows the address 'http://www.springerprotocols.com/' and the title 'SpringerProtocols - Microsoft Internet Explorer'. The taskbar at the bottom includes icons for 'Пуск', 'Total Commander 6.0 - P...', 'ICSTI Consortium Medica...', 'ресурсы март 2011 - М...', and 'SpringerProtocols - M...'.
