

**Роль заведующей**

**в создании экологической среды**

**в дошкольных образовательных учреждениях**

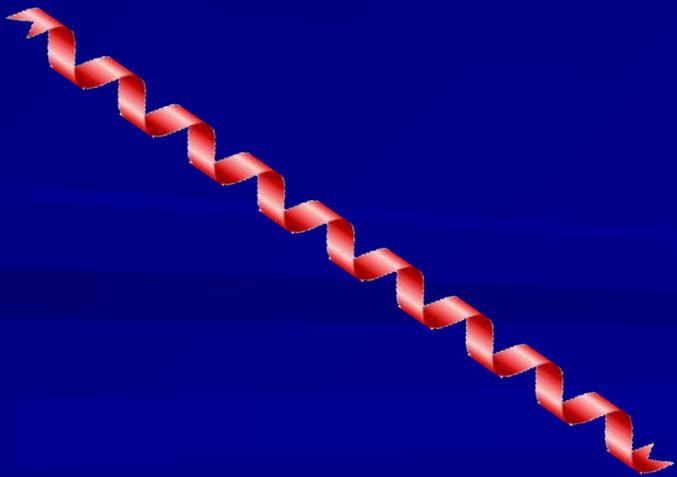

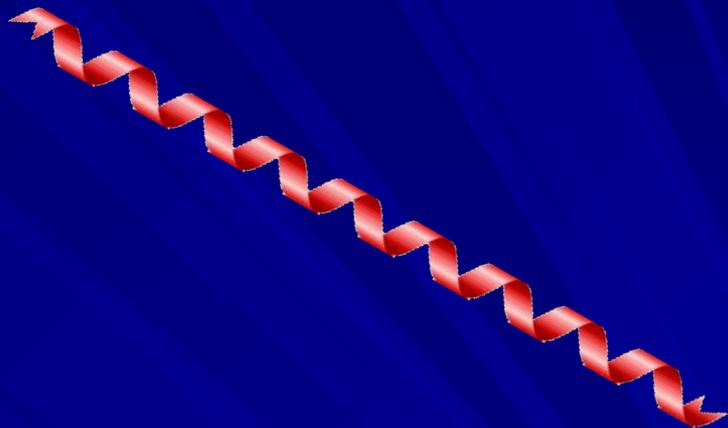

(из опыта работы ДООУ № 3 «Орленок»  
г. Волжска Республики Марий Эл)

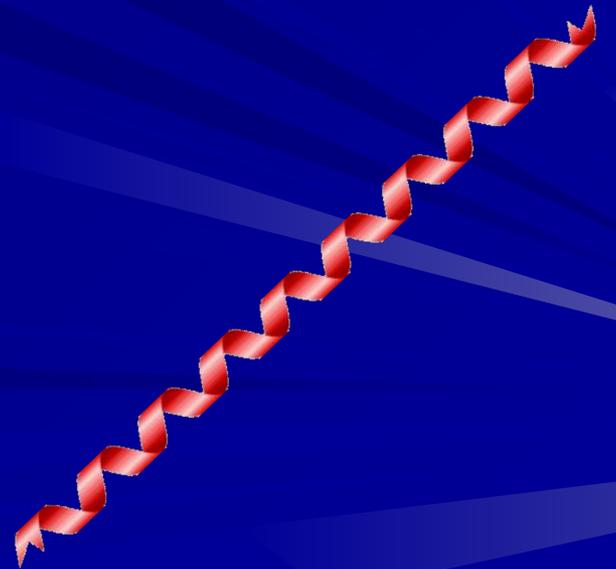

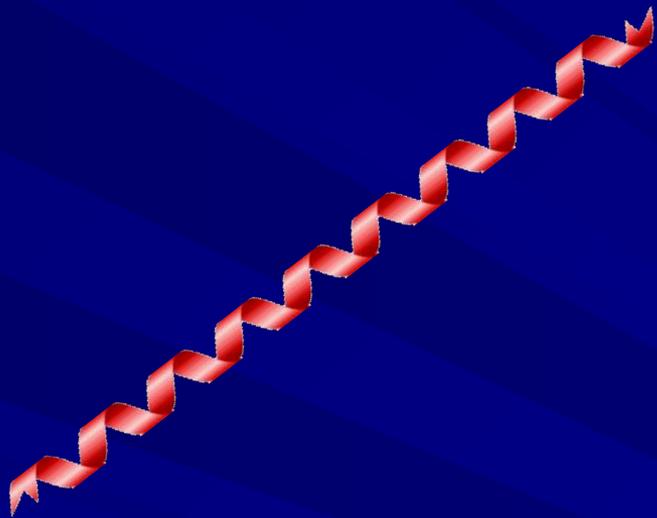

Катастрофическое ухудшение экологической обстановки стоит в ряду самых актуальных проблем современности.

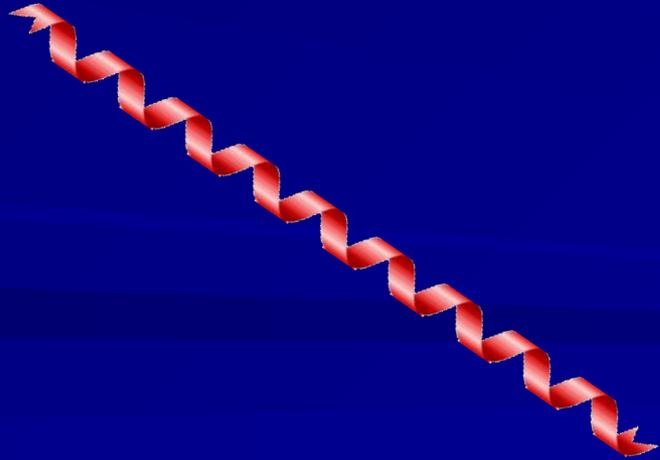

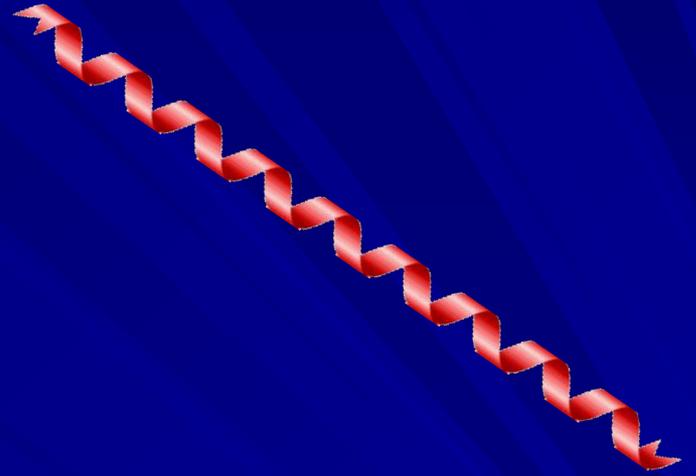

Организация и создание в ДОУ полноценной эколого-развивающей среды (различных «экологических пространств») – важнейшего обстоятельства в осуществлении воспитательно-образовательной работы с дошкольниками и их родителями.
