

System Center “Service Desk”

Руслан Акмеев
Консультант
Microsoft Consulting Services, Russia

Microsoft Management Summit 2006

Agenda

- Что мы услышали от наших заказчиков
- Vision
- Что будет в “Service Desk” версии 1
- Даты выхода на рынок

Что мы услышали от наших заказчиков...

Просто в использовании

- Интуитивно понятный пользовательский интерфейс
- Основные формы «как в ITIL/MOF»
- Простая инсталляция системы: «Next, Next, Next, Finish» ☺

Интеграция с другими продуктами Microsoft

- Совместная работа с Office 2007
- Использование MOM для процессов управления инцидентами и проблемами
- Configuration Manager для инвентаризации
- Использование MOF для автоматизации процессов

Простота настройки

- Использование привычных инструментов для настройки форм и процессов
- Использование большого количества уже готовых сценариев: «только чуть подправить»
- Конфигурирование «визардами»

“Service Desk” Vision

“Создать решение, которое поможет ИТ-подразделениям автоматизировать передовой опыт работы процессов, будет просто в настройке и использовании и интегрироваться с множеством технологий Microsoft”

Microsoft
System Center

Microsoft

Office

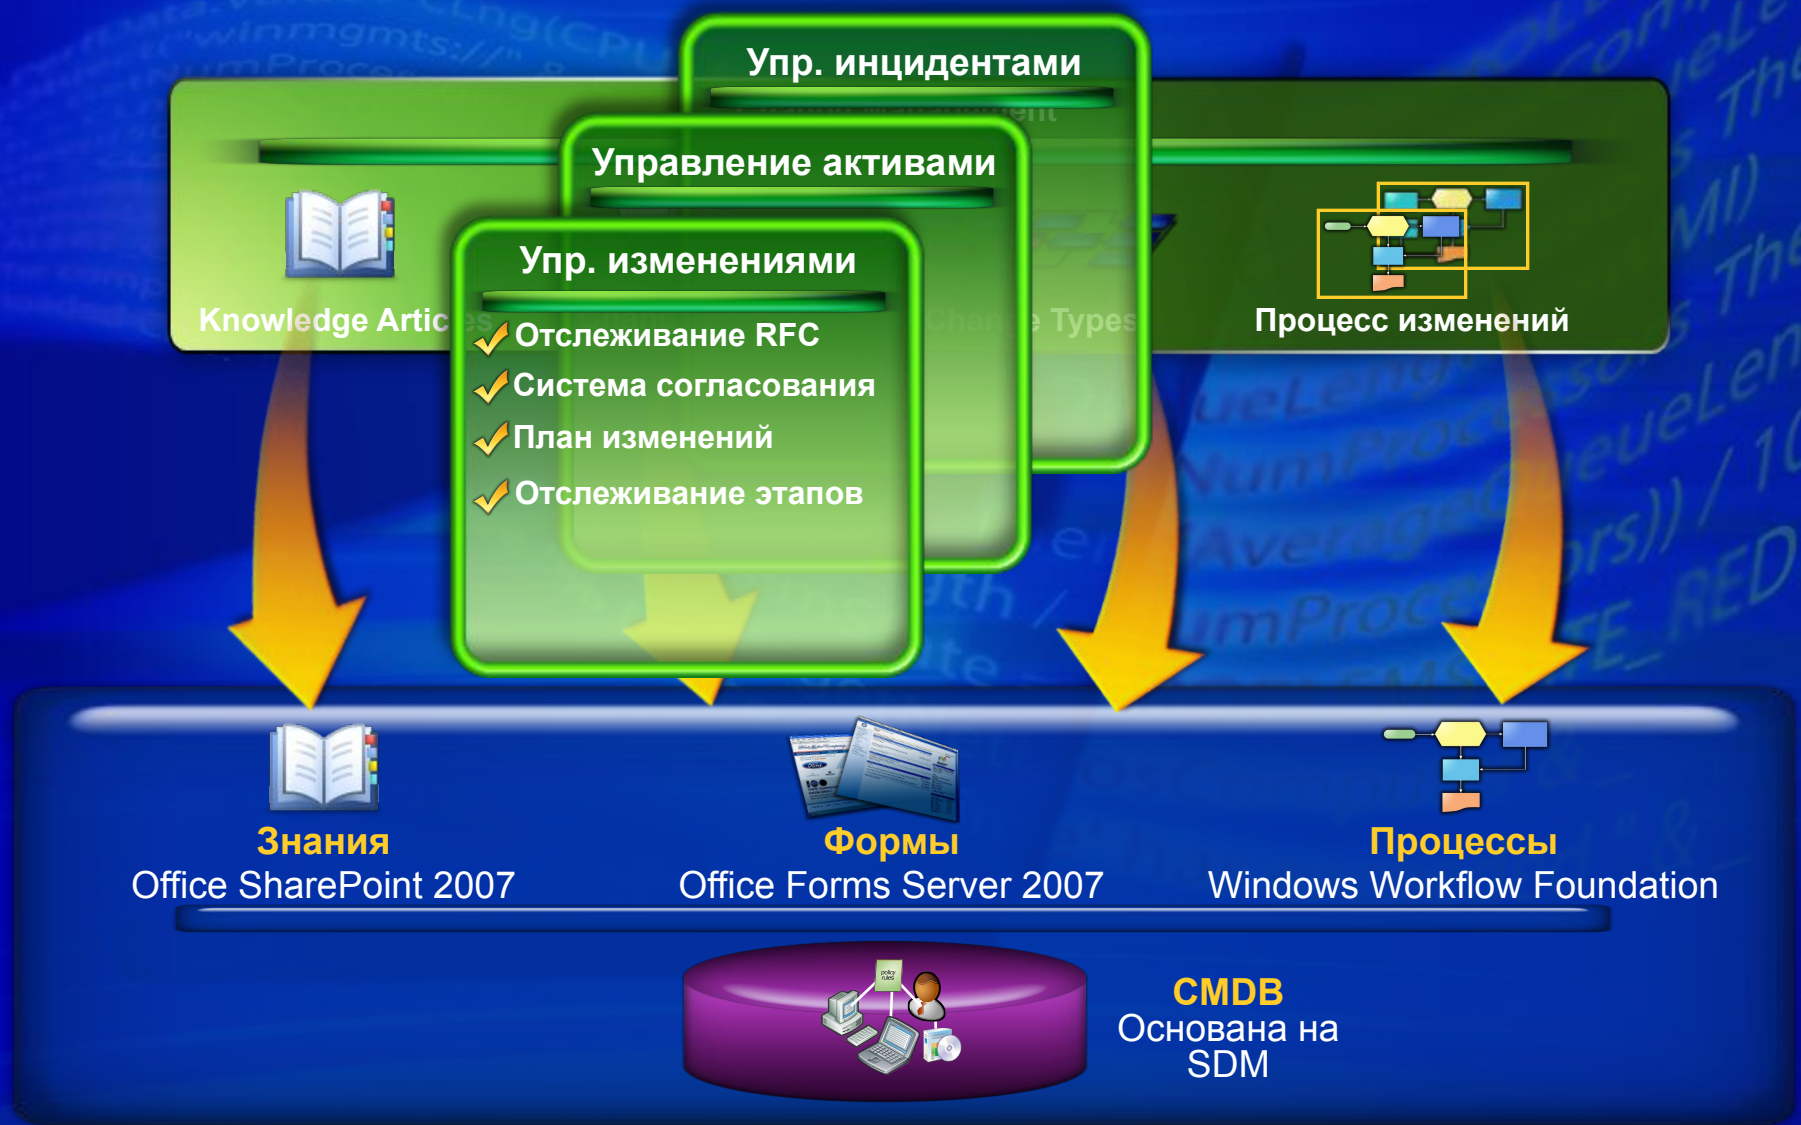

Microsoft
Windows Server System

Состав "Service Desk"

Автоматизация лучших практик

Расширения “Service Desk”

“Service Desk” Сценарии создания

Information Worker Tools

- Простейшее создание новых форм
- Создание Знаний
- Создание Отчетов

Developer Tools

- Создание Workflows
- Добавление новых типов в CMDB
- Кастомизация портала “Service Desk”

Технологии в “Service Desk”

Управление Знаниями

- **Создано на SharePoint 2007**

- Доступ к контенту в портале или консоли
- Полноценный поиск
- Статьи и вложенные файлы линкуются к CMDB
- Создание и согласование новых статей используя инструменты MS Office

- **Общий формат**

- Основан на MAML, который используется в MOM, MSDN и TechNet
- Просмотр базы знаний из MOM через Service Desk
- Интеграция результатов поиска с TechNet и MSD

- **Процессная документация**

- Не противоречит и поддерживает MOF

Knowledge

Office SharePoint 2007

Forms

Office Forms Server 2007

Workflow

Windows Workflow Foundation

CMDB

Based on SDM

Технологии в “Service Desk”

Формы

- Созданы в InfoPath Server 2007
 - XML-based
 - Показ форм через HTML и WinForm
 - Кастомизация с помощью InfoPath 2007
- UI поддерживает MOF/ITIL
 - Формы содержат рекомендованные понятия и термины
- Настройка пользовательского интерфейса
 - Изменение названий полей без модификации схемы данных
 - Добавление новых форм, используя InfoPath 2007

Knowledge

Office SharePoint 2007

Forms

Office Forms Server 2007

Workflow

Windows Workflow Foundation

CMDB

Based on SDM

Технологии в “Service Desk”

Workflow

- Создан на Windows Workflow Foundation (WinWF)
 - Поддержка процессов как для систем, так и для людей
 - Визуальный дизайнер процессов Visual Studio 2005
- Автоматизация MOF/ITIL
 - Готовые имплементации процессов MOF/ITIL
- Настраиваемые процессы
 - Настройка большим количеством «визардов»
 - Создание новых процессов с помощью Visual Studio 2005

Knowledge

Office SharePoint 2007

Forms

Office Forms Server 2007

Workflow

Windows Workflow Foundation

CMDB

Based on SDM

Технологии в “Service Desk”

CMDB

- **Создано на технологии SDM**

- Общая meta-model и core model для System Center
- Хранилище данных: SQL 2005

- **Конфигурационные единицы**

- Hardware, software, пользователи, сервисы и т.д..
- Связи между Конфигурационными Единицами (равноправные, подчиненные)

- **Work Items**

- Отслеживание Инцидентов, Проблем, RFC
- Линкование Конфигурационных Единиц с Work Items

Beta 2
1H 2007

RTM
2H 2007

- Обратная связь с клиентами и партнерами в процессе создания
- Особое внимание: простота, интегрируемость, расширяемость
- Стратегические цели:
 - Глубокая интеграция с System Center
 - Управление Инцидентами и Проблемами (Incident and Problem Management)
 - Управление Активами (Asset Management)
 - Управление Изменениями (Change Management)
 - Самообслуживание (Self-Service Solutions)

The Microsoft logo is centered in the image, rendered in a bold, white, sans-serif font. The background is a deep blue with a subtle, curved perspective, overlaid with faint, semi-transparent white text that appears to be snippets of code or system logs, such as 'CPU_PERCENTAGE', 'ScriptContext.Target', and 'NetbiosComputer'.

Incident ID: 634626 Assigned To: Al Young

Date Opened: 6/30/2006 7:34 AM

Title: Periodic delay in sending email

Status: Active Created By: Al Young

Sub-Status: Fix Ready Created For: Melissa Meyers

Description: Melissa's email is running very slowly. The problem has been happening repeatedly over the last 6 months. Outlook continually looses connection. She's running Outlook 2003.
