GOOGLE ANALYTICS: ИДЕАЛНАТА СТАТИСТИКА ЗА ВСЕКИ САЙТ

The image shows a screenshot of the Google Analytics homepage. At the top, the Google Analytics logo is on the left, a language dropdown menu set to 'US English' is in the center, and a search box is on the right. Below the logo is a navigation bar with orange buttons for 'HOME', 'PRODUCT', 'SUPPORT', 'EDUCATION', 'PARTNERS', and 'BLOG'. The main content area features a large headline: 'Enterprise-class web analytics made smarter, friendlier and free.' To the right of this headline is a blue button labeled 'Access Analytics' and a link 'Sign Up Now' for new users. Below the headline is a paragraph describing Google Analytics as an enterprise-class solution. Further down, there are three feature boxes: 'FLEXIBLE CUSTOMIZATION' with a hand icon, 'ECOMMERCE TRACKING' with a shopping cart icon, and 'GOALS' with a target icon. At the bottom, there are three sections: 'PRODUCT TOUR' with a play button icon, 'NEWS & HIGHLIGHTS' with a RSS icon and a link to the 'Google Analytics Blog Feed', and 'STRATEGIC SOLUTIONS' with a link to the 'Application Gallery'.

BlogPulse Trend Search allows you to create graphs that visually track "buzz" over time for certain key words, phrases or links. Compare search terms/links in isolation, or use all three fields to compare search terms/links against others.

Type your search terms in the boxes on the left. Type descriptive labels for each search into the boxes on the right. Then choose your time frame: 1, 2, 3 or 6 months.

Welcome to your user's head!

Clixpy tracks everything your site's users do: mouse movement, clicks, scrolling, form inputs. You can watch and examine videos showing your users' actions.

[Sign Up Now](#) or [try the demo](#)

What is Clixpy and how it works ?

Clixpy is a web usability testing tool. It's very easy to install, just by pasting a few lines of JavaScript code in your site's HTML. When users browse your website Clixpy traces everything they do and then plays it for you, giving you the opportunity to extract any information you may need.

Why should I use Clixpy on my website ?

Clixpy helps you find out which features are difficult to use and which are easy, where your users spend more time and why they leave your website. Clixpy can help you optimize landing pages and convert more visitors to clients.

It's simple

It takes just a couple clicks to post anything or to start a discussion.

It's conversational

Your friends comment on the things you share, and you see their comments in real-time. So talk with your friends, not at them.

It's open

Read and share however you want — from your email, your phone or even from Facebook. Publish your FriendFeed to your website or blog, or to services you already use, like Twitter.

Experience the web with Facebook friends.

Social plugins let you see what your friends have liked, commented on or shared on sites across the web. All social plugins are extensions of Facebook and are specifically designed so none of your data is shared with the sites on which they appear.

Learn more about how you'll see these across the web.

Add social plugins to your site with just one line of HTML:

Like Button

The Like button lets users share pages from your site back to their Facebook profile with one click.

Recommendations

The Recommendations plugin gives users personalized suggestions for pages on your site they might like.

Login with Faces

The Login with Faces plugin shows profile pictures of the user's friends who have already signed up for your site in addition to a login button.

Activity Feed

The Activity Feed plugin shows users what their friends are doing on your site through likes and comments.

Like Box

The Like box enables users to like your Facebook Page and view its stream directly from your website.

Facepile

The Facepile plugin shows profile pictures of the user's friends who have already signed up for your site.
