To many people the name of Walt
Disney means the world of
cartoon. He created a lot of
short cartoons and many longer
films. His name is very famous.
He was born in Chicago
on December 5, 1901.

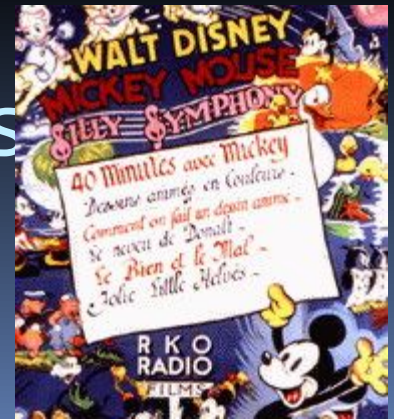

When he grew up, he began to draw pictures and create cartoons, and one day he had an idea to make a mouse the main character of the cartoons. In 1928 the audience saw Mickey Mouse on the screen and they

both became famous stars.

Then came other characters:
Donald Duck, Pluto, and
many, many more.

The characters in Disney's cartoons are clever, kind and friendly.

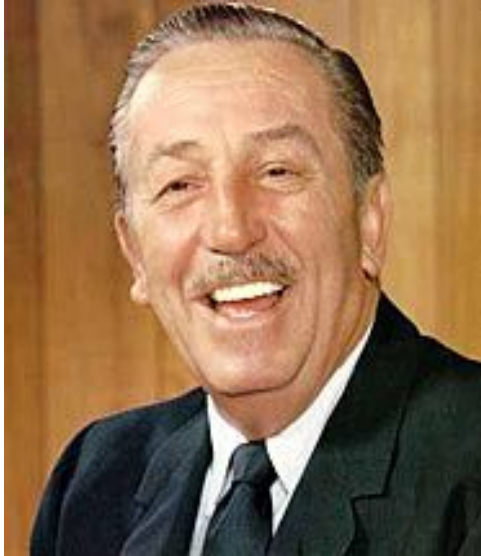

All the films end happily..
They are easy and nice to
watch. We always feel
comfortable and enjoy them very
much.

One day an idea came
Disney. He wanted to
create a special
place, a special land for
children and parents to have
fun together. So he built
Disneyland in California
near Los Angeles.

In December 1966 Walt
Disney

but he left us several
hundreds of cartoons,
that won 29 “Oscars”,
and a wonderful world
of fairy tales.
