THE TECHNICIAN-PROGRAMMER IS THE SYSTEM ADMINISTRATORS, PROGRAMMERS, WEB DESIGNERS AND OTHER FIGHTERS OF THE INVISIBLE FRONT WHO SERVE THE COMPUTER WORLD. ALL OF THEM - WITH THE NECESSARY QUALIFICATIONS AND EXPERIENCE - ARE IN GREAT DEMAND IN THE GLOBAL LABOR MARKET.

That I become a good technician-programmer in the future must work hard, and then I will get what need

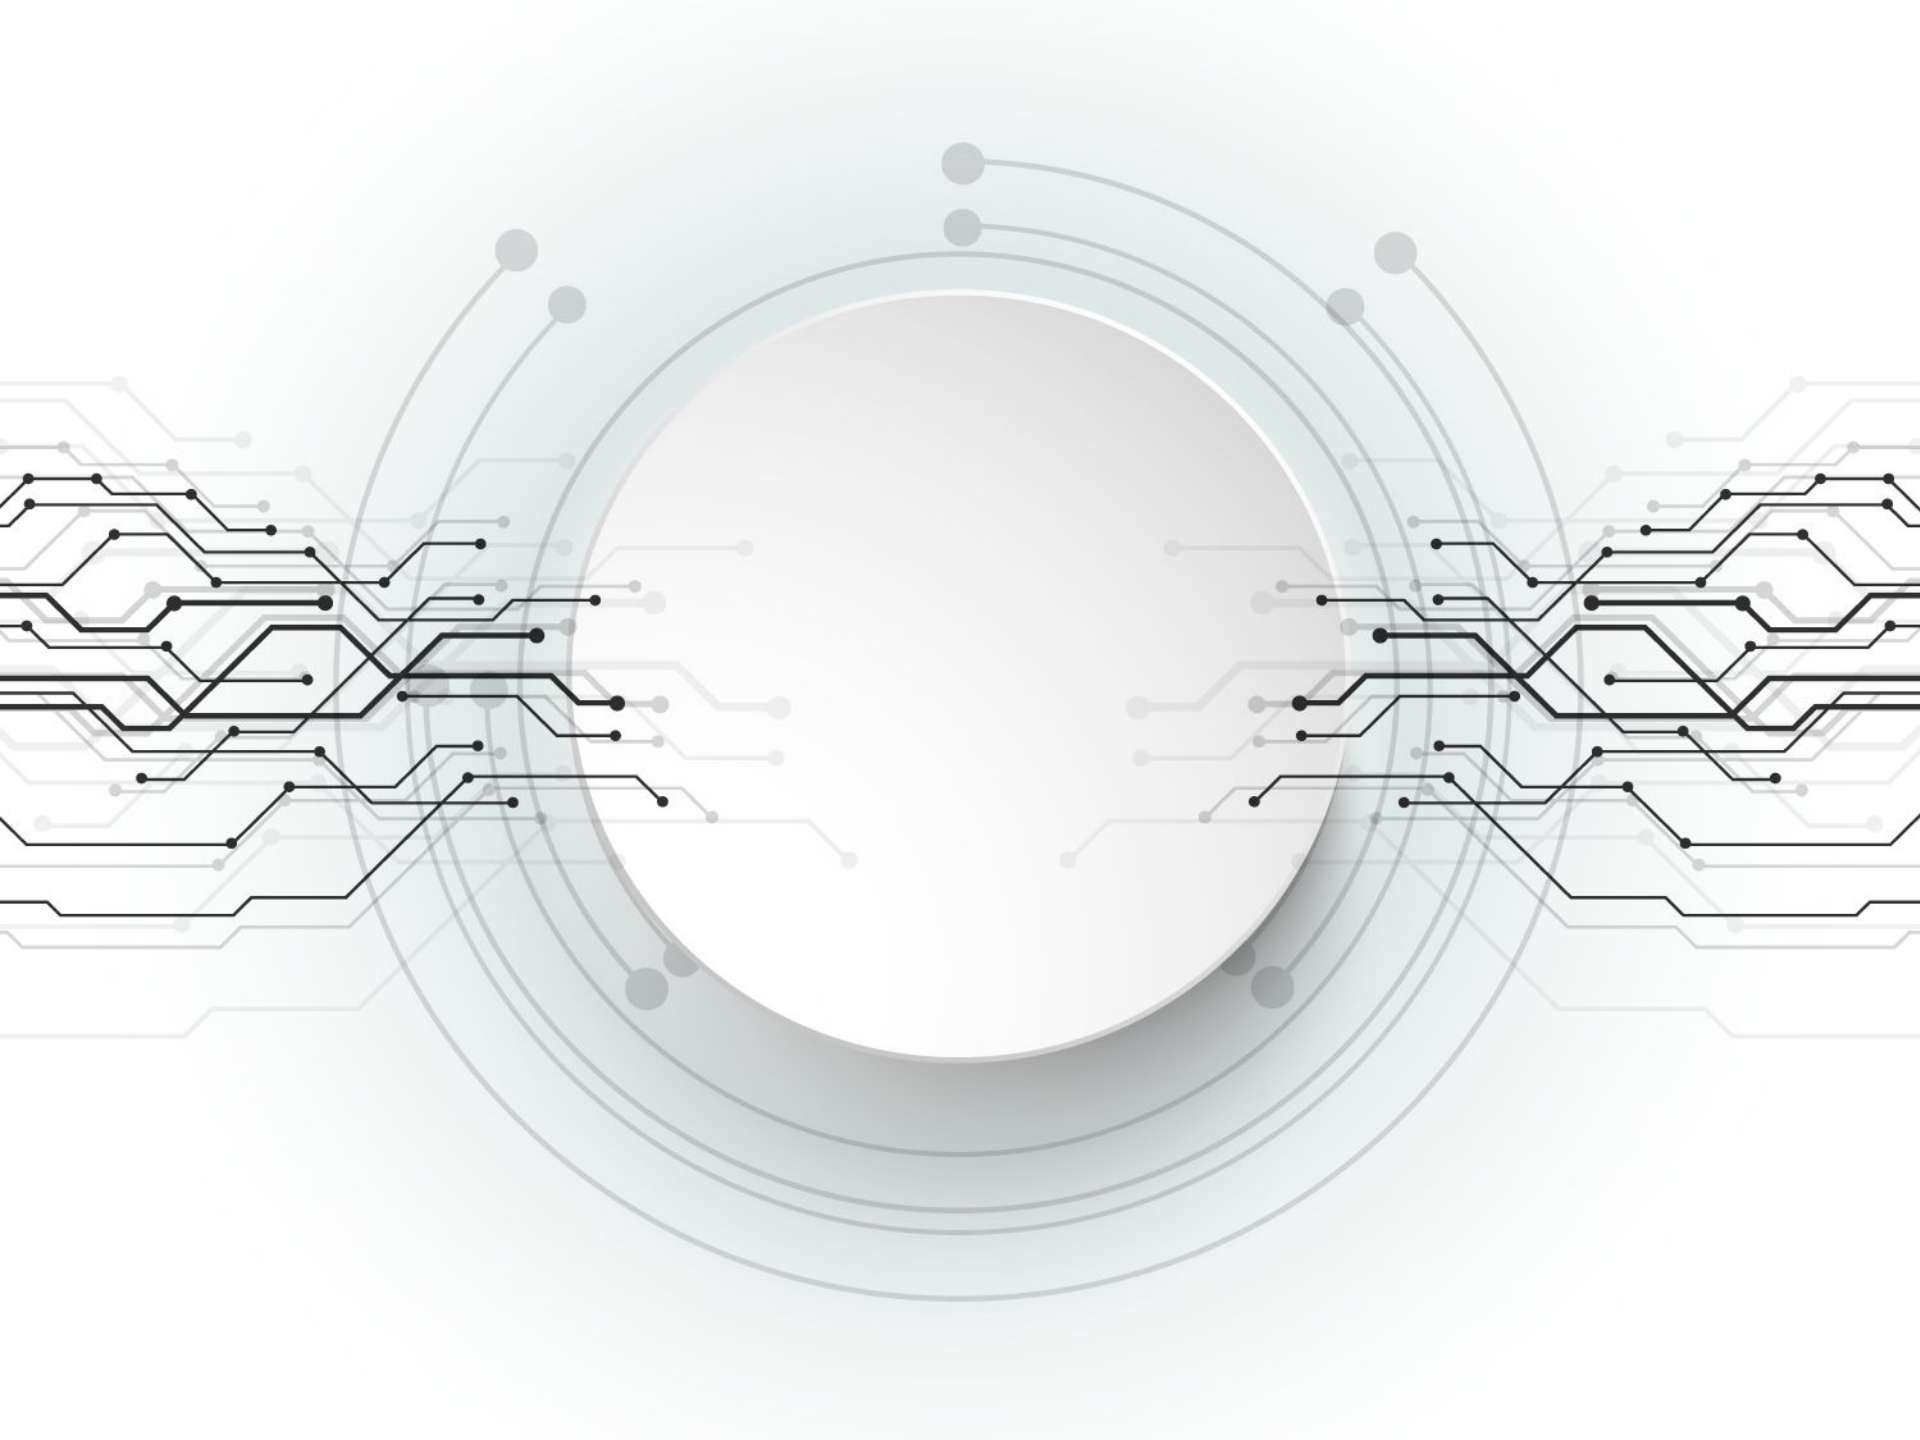

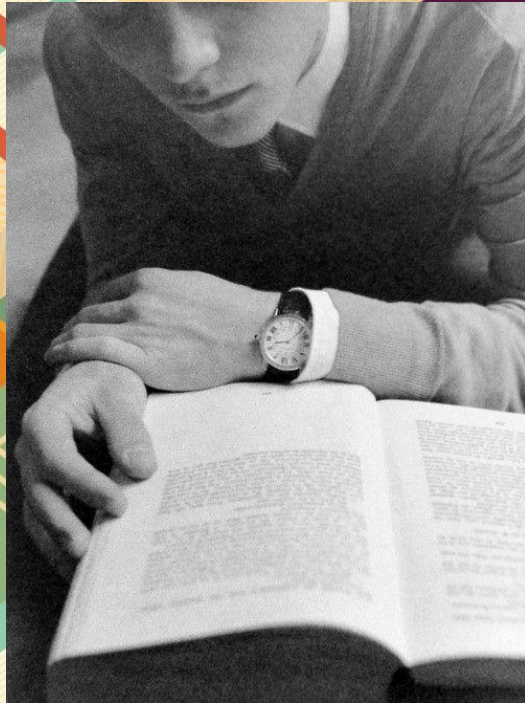

MY DREAM ... I MYSELF WANT TO CREATE A NEW PROGRAM FOR COMMUNICATION THAT EVERYTHING CAN BE USED. BUT OTHER THAN THESE PROGRAMS, I WANT TO CREATE APPLICATIONS THAT CAN QUICKLY GO TO THE SITE YOU NEED.

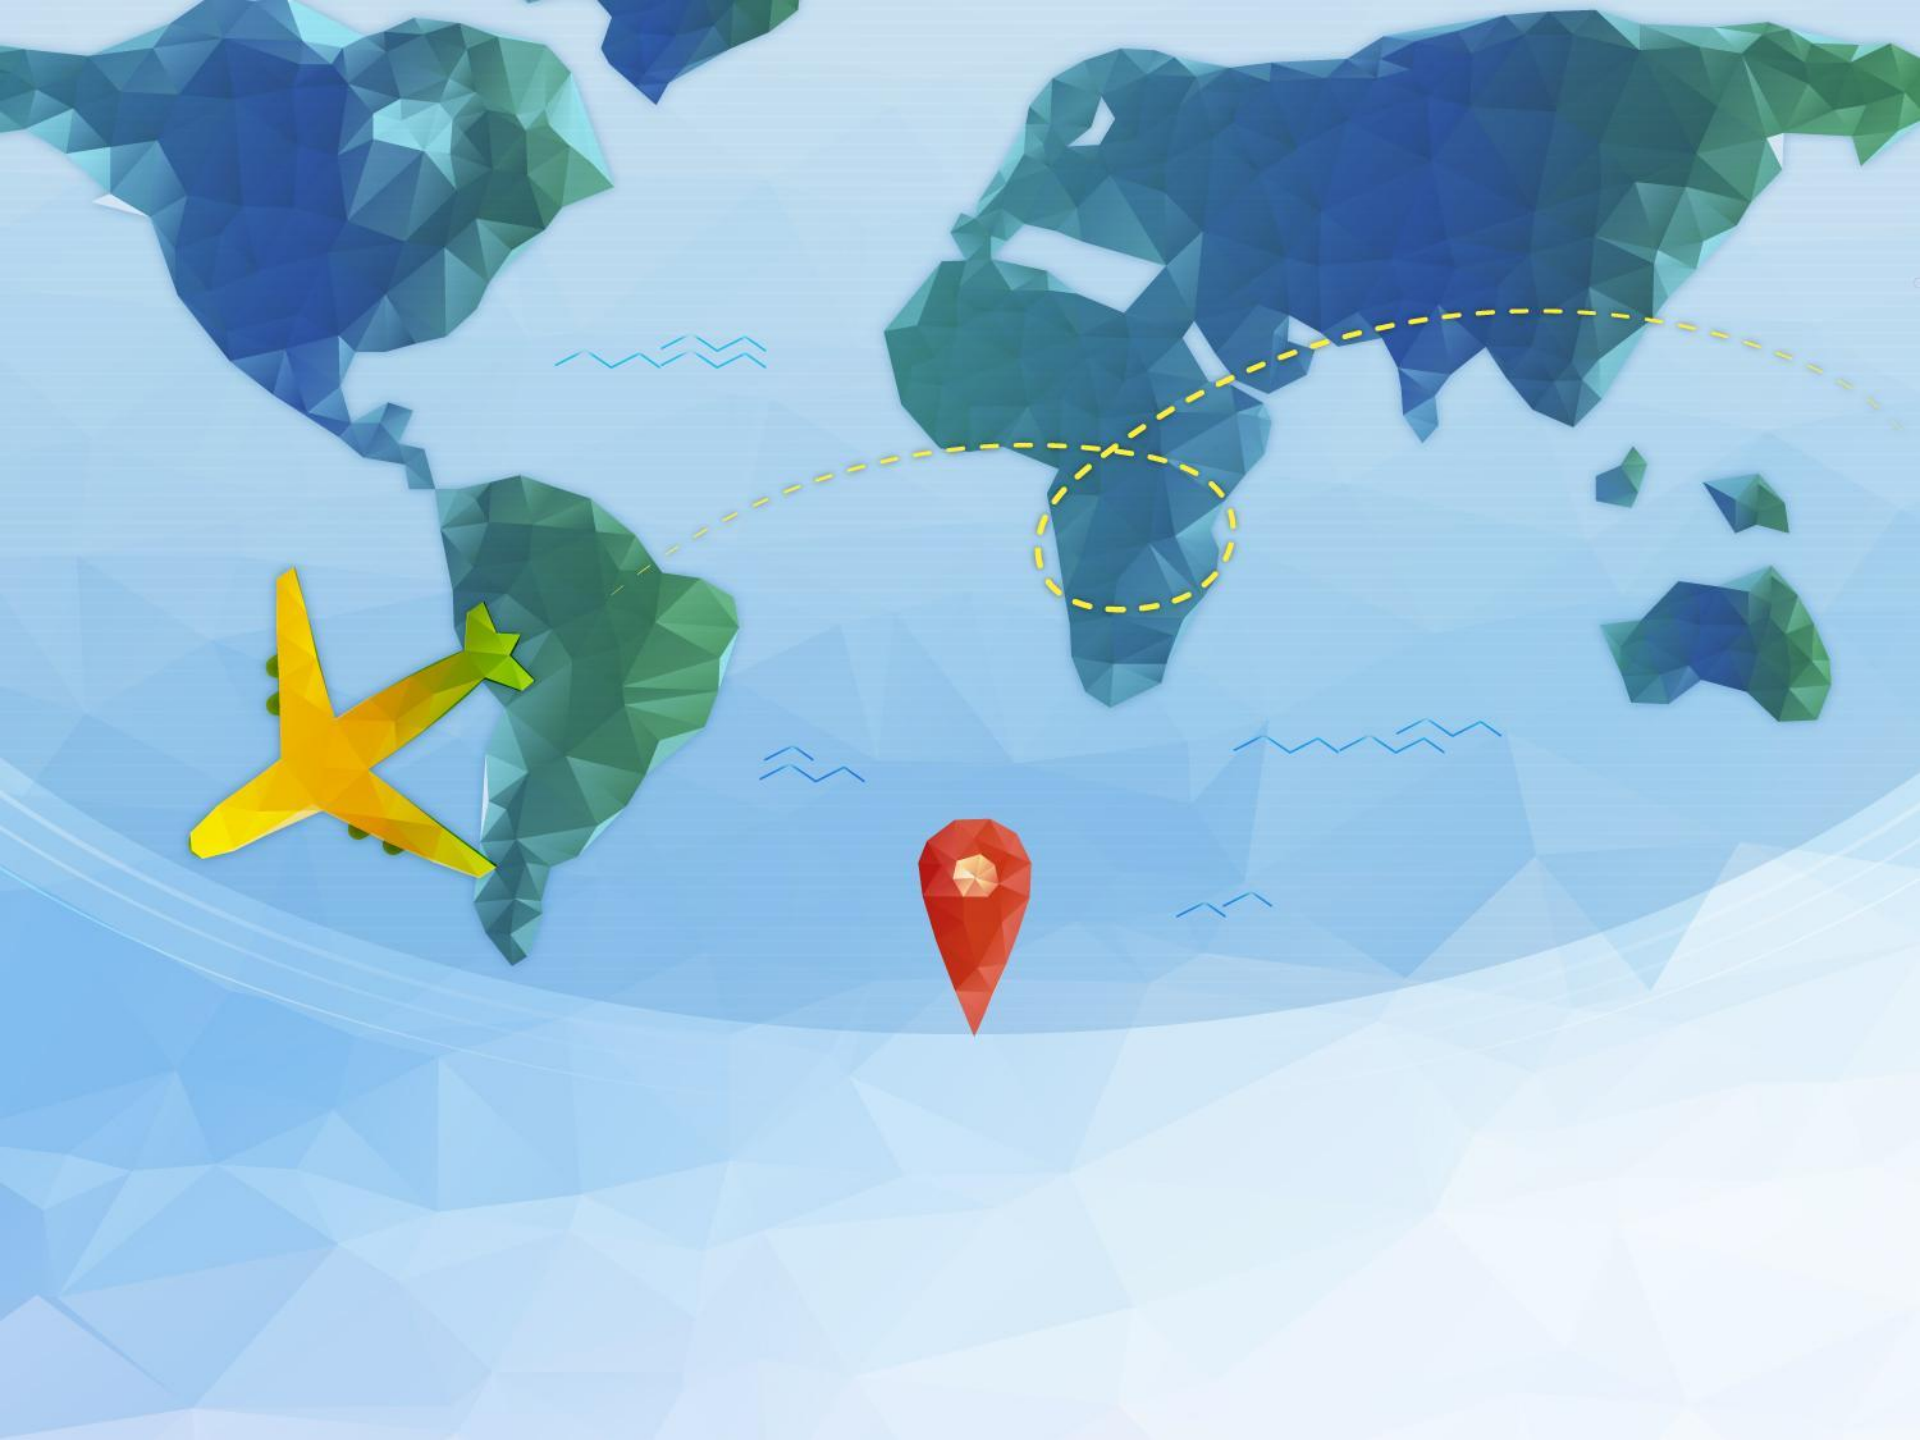

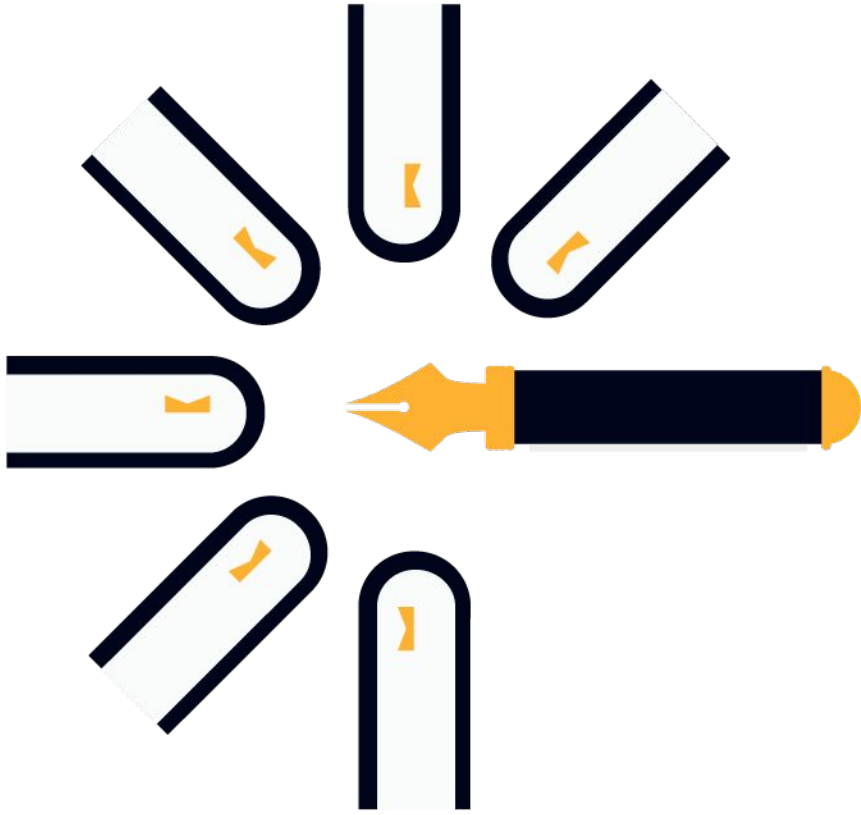

I like reading a book

A watercolor illustration of travel items. At the top left is a silver camera. To its right is a pink flower with green leaves. Further right is a brown hat. In the center is a light blue world map. At the bottom left are brown binoculars. At the bottom right is a blue compass with a red and blue needle, and a green fern leaf. The entire scene is set against a light blue background with a white border.

I like traveling
