How suitable would each venue be to hold a graduation party? (2 min)
Then decide: which two venues would be the best places to hold the party? (1 min)

Your friend has recently graduated from university and wants to throw a party for all his family and friends. He has five venues in mind.

- How suitable would each venue be to hold a graduation party?
- Which two venues would be the best places to hold the party?

The image contains five circular illustrations representing different venues for a graduation party. 1. Top-left: A group of five people sitting around a round table with a pink tablecloth in a restaurant setting. 2. Top-right: A group of people dancing on a red carpeted floor with a 'PARTY' banner and confetti. 3. Middle: A group of people gathered around a bonfire on a beach at night. 4. Bottom-left: A group of people at a swimming pool, with one person in the water and another on the pool deck. 5. Bottom-right: A group of people sitting on a red picnic blanket in a grassy park area, eating and talking.

Are birthdays important times in your culture?
What do people usually do to celebrate?

Are you planning to go to any festivals this year?
(Tell us about that festival/ Why not?)

When will your whole family next meet up? What

When did you last meet up with your extended
family? Was there any special reason for this
meeting? What did you all do?

As far as I am concerned,
I am convinced that
If I had to choose
I have never thought about that before,
Let me think
Oh, that's a tough one, let me think
