The training system.

- Unlike the school, textbooks are not used at the lectures of the IT-TOP Academy, and each teacher prepares presentations, thereby not loading students' portfolios with heavy textbooks.
- Also, for timely visits to couples, completing homework on time and for a good grade in the magazine, students receive a kind of currency that can be spent on things with the academy's merch in the future. (What other colleges don't have)

In conclusion, we can say that the academy is located in the city center next to the Tyumen heritage—the drama theater. It is also located next to many shops and vending machines with food and drinks have recently been installed inside the college, which creates more convenience for the student of the academy.
