产品名称: 甜菜制糖设备

产品编号6620340 : 产品型号: TL500, TL1000, TL15000

产品生产地: 河北 邢台

该产品目前是国内多家糖厂选用行业使用、酒厂、糖蜜加工厂、果酱酿制厂、

腐乳加工。食品行业!

该产品包括八个工段流程

一、流洗工段:甜菜用流洗设备洗净并去除杂物。

二、切丝工段:把甜菜切成丝状可有效的提高浸出效率。

三、渗出工段:使甜菜丝内糖份渗出。

四、清净: 尽可能多地从渗出汁中除去悬浮的和溶解的非糖分。

五、过滤:过滤掉饱充汁的不溶物、杂质。

六、蒸发: 充分利用热源,提高浓度。

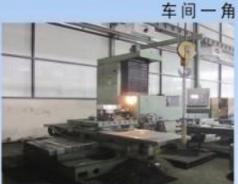

七、结晶: 争取最大结晶率, 煮炼成合格的成品。

八、包装:经过干燥处理后,包装成成品。

Product name: beet sugar equipment

Product Numbers 6620340: the product model: TL500, TL1000, TL15000

Product producer: hebei xingtai

This product at present many domestic enterprises choose industry use sugar refinery, brewery,

molasses processing plant, jam brewed factory. Fermented bean curd processing. The food industry! The products include eight sections process

A wash, flow section: beet with flow wash clean equipment and remove debris.

Second, shred section: the beets cut into filamentous can effectively increase extraction efficiency.

Three, oozy section: make in the sugar beet silk.

Four, clean: as much as possible from the juice of suspended and removed the dissolved the sugar.

Five, filter: filter out full of filling juice insoluble substances, impurities.

Six, evaporation: make full use of heat source, improve concentration.

Seven, crystal: fight for maximum crystallization rate, cook made by qualified products.

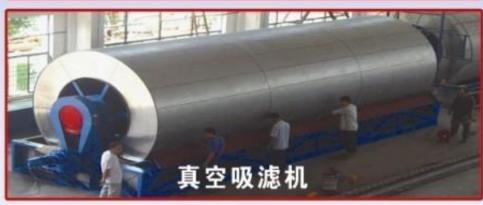

Eight, packing: through dry processing, packing into finished products.

The factory is the professional equipment of the old factory of production of single crystal rock sugar, has many years of production experience and strong technical strength, long-term commitment to the single crystal rock candy equipment, complete sets of equipment of the polycrystalline crystal sugar, sugar machine equipment, vacuum condenser equipment, seed machine, seed crushers, storage tanks, boil sugar pot of sugar pot, caramel tank, nitrogen generator, filters, automatic water supply equipment. large steel structure, equipment development and manufacturing. Also design and manufacture of metal structures and pressure vessels according to user needs, and assist in the installation and commissioning. Through the improvement of crystal sugar production technology and equipment, the factory developed a state-of-the-art rock candy production line, can increase the crystallization rate, and reduce energy consumption and reduce costs. The factory also bear rock sugar industry technical transformation project planning and design business, providing installation of sugar technology, the chunk of rock sugar Note (the chunk of rock candy sugar rate can reach more than 90%, a crystal can be up to 82%). Brown sugar, white sugar and the single crystal rock sugar is responsible for the installation of plant design. Our solemn promise, the device lifetime warranty Now deliver the latest technology out of sugar molasses deal with the use of up to 100% effective solution to make sugar remaining molasses problem, site design and planning can be based on the client side the existing plant conditions. Excellent quality, reasonable price, perfect quality assurance system, the enterprise product in the market with an excellent reputation and user base, was named to the Langfang City contract and credit enterprise.
