

MY HOME LIBRARY

Many books from our home library are old. It were a books of my grandmothers or grandfathers and my mother.

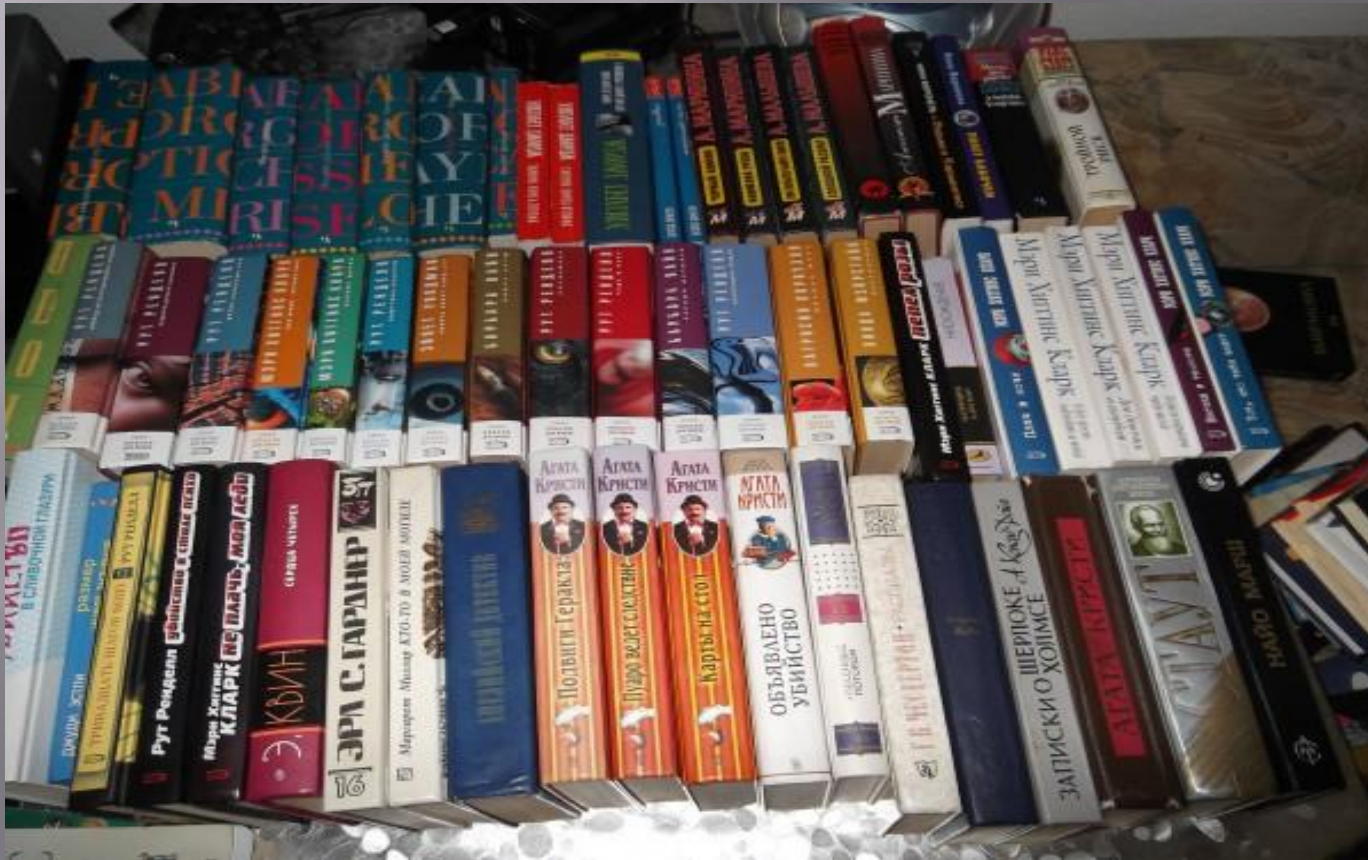

I have many dictionaries. They belonged to my older sister when she was in school. I often use them when I'm doing homework.

I also have encyclopedias and scientific books. they can be about UFOs,unusual natural phenomena or disappeared civilizations.

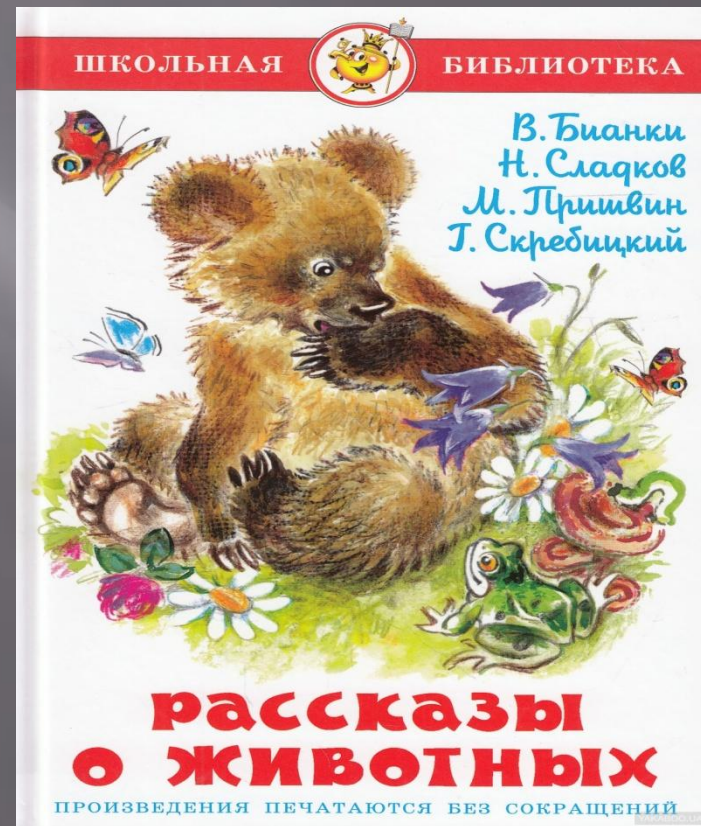

my mother like detective stories and novels .She even has several collections.

different
kinds of
books. I have
a collection
of
detectives, fic
tion, novels,
and short

I started collecting books at age 6 when I learned to read. It was the tales and stories about animals.

My family has
so many
books, that
the bookcase
is not enough.

But I don't like to reread
books , so every 2 weeks
I go to the library and
take 2-3 books,not to be
bored in the evenings.

I plan to fill my home library
