Свойства воды

The image features a vibrant blue background with a soft, out-of-focus texture. In the upper left corner, several bright green, elongated leaves hang down. The central focus is a vertical sequence of three water droplets. The top two are small, clear spheres. The third, larger droplet is positioned just above a series of concentric, shimmering ripples that spread out across the lower half of the frame. The overall composition is clean and refreshing, with a strong emphasis on water and nature.
