SPOTLIGHT ON

WOMEN IN LEADERSHIP

Women remain underrepresented in leadership and management level positions in the public and private sectors. While quotas have been implemented to boost women's participation in politics and corporate boards, parity is far from reality.

INTIMATE PARTNER VIOLENCE

Intimate partner violence against women and girls is widespread across the globe. In the most extreme cases, it can lead to death. Social norms and widespread impunity for perpetrators are key challenges fueling this type of violence.

*Data are latest available (2005-2016) for women and girls aged 15 to 49, across 87 countries. **Based on 2012 or latest year estimates from 52 countries. Неоплачиваемая работа по дому

SPOTLIGHT ON

UNPAID CARE & DOMESTIC WORK

Women and girls perform the bulk of unpaid care and domestic work. Combined with paid work, this leaves women and girls working longer hours with less time for rest, self-care, learning, and other activities, such as political participation.

3x On average, women do three times as much unpaid care and domestic work as men.

What share of unpaid work do you do?

Unpaid care work benefits all of us, but women and girls carry the disproportionate share, curbing their economic potential.

About this map

The colour coding of the countries reflects the percentage of women in unicameral parliaments or in the lower house of parliament, and corresponds to the data found in the world ranking of women in parliament on the right-hand side of the map. A world ranking of women in ministerial positions is on the left-hand side of the map.

All data reflects the situation on 1 January 2017. As the source of the data presented here, IPU is responsible for the criteria applied in displaying the information.
