

A modern office interior with glass walls, a conference table, and a potted plant. The office is dimly lit, with the primary light source being the text overlay. The background shows a glass-walled conference room with a long table and several chairs. A large potted plant is visible on the right side. The walls are decorated with a hexagonal pattern in shades of yellow and green. The ceiling features recessed lighting fixtures.

LED Panel Lights

Bring Brightness to Your Work Environment

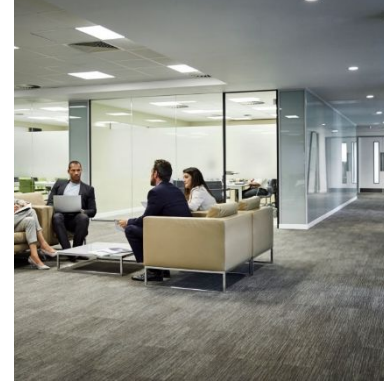

These LED office ceiling lights give you an unmatched advantage over conventional panel lights and save you a lot on your utility bills.

Index

Good quality commercial office lighting is an integral part of any business process. Therefore, it is important for you to install lights that not just increase productivity but are also good for the environment.

LED Office

When it comes to lighting commercial and office spaces, LED Panel Lights are a perfect choice. The right kind of illumination increases the productivity of employees and reduces accidental risks. LED office lighting saves you a lot on your utility bills.

Advantage

Long-Lasting: They have a longer life span ranging from 50,000 hours to 100,000 hours compared to the traditional lights.

Environment friendly: They are suitable for the environment as they generate less heat and do not have harmful components.

Easy to Install: There are three ways to install LED Panel Lights

- Recessed-mount
- Surface-mount
- Cable suspended-mount

Color Temperature

LED Panel lights are available in multiple color temperatures

- 4000 Kelvin
- 5000 Kelvin
- 6500 Kelvin

Endurance

- LED panel lights perform better than their traditional counterparts
- Generate less heat and more energy efficient
- They mainly come with a warranty of more than five years as they don't require continuous maintenance.

LED Panel lights are best suited at

- Offices
- Schools
- Hospitals
- Fast-food chains and convenience stores
