SCHOOL SUBJECTS

- **English** is an international language. This school subject includes listening, reading, speaking and grammar. More than 60 countries are using it as the official state language, and many organizations are using it as official business language. So almost all school students learn English. This international language is to be taught in the first class.

Biology - the science of life, the structure of various organisms. Students in the biology class receive information about the features of living organisms.

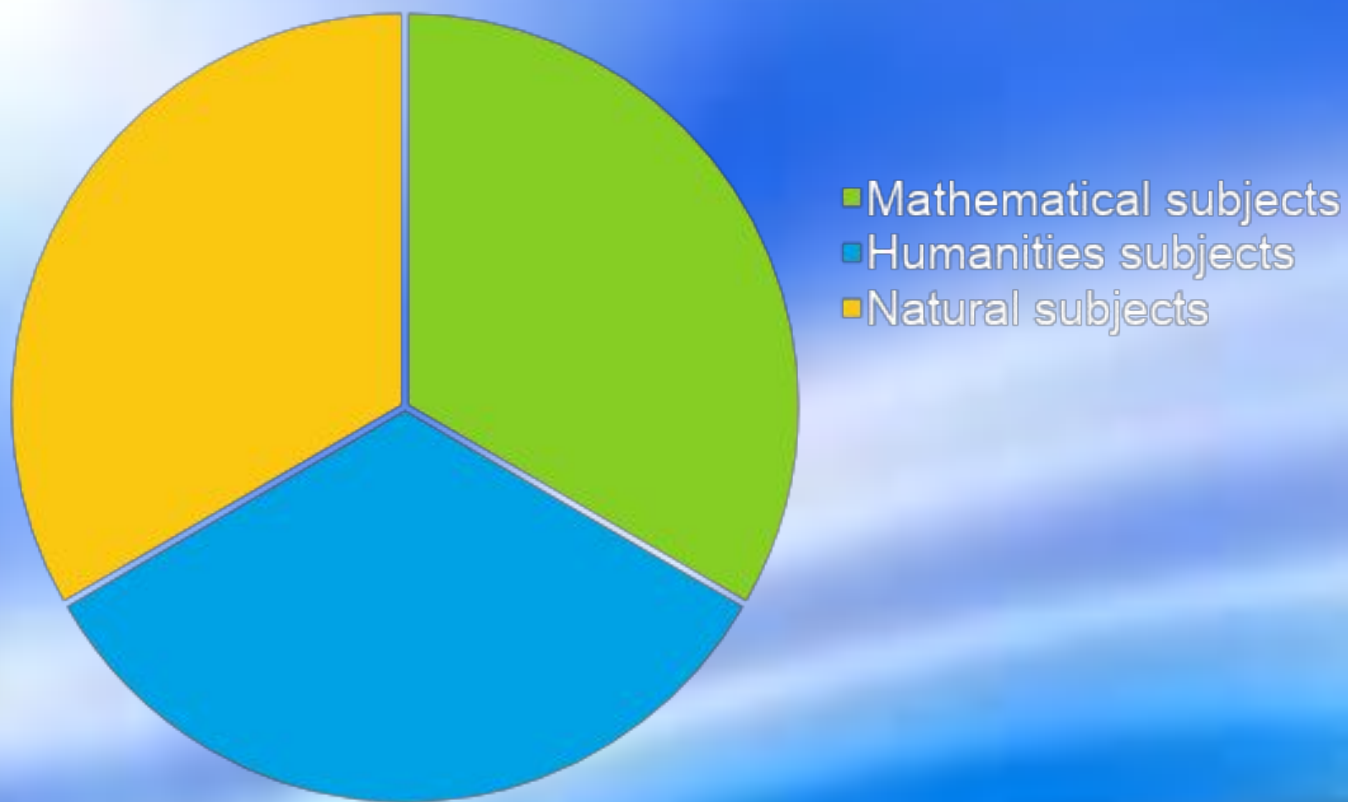

Mathematics - the science of computation of spatial relations. It requires humanity for calculations, calculations, measurements and more.

History - the science that helps studying specific information about the past of mankind. This information is contained in the sources of the study of history. Students learn the history of development of human society in different areas.

Groups of subjects

Mathematical group of subjects are geometry, algebra, physics, computer science.

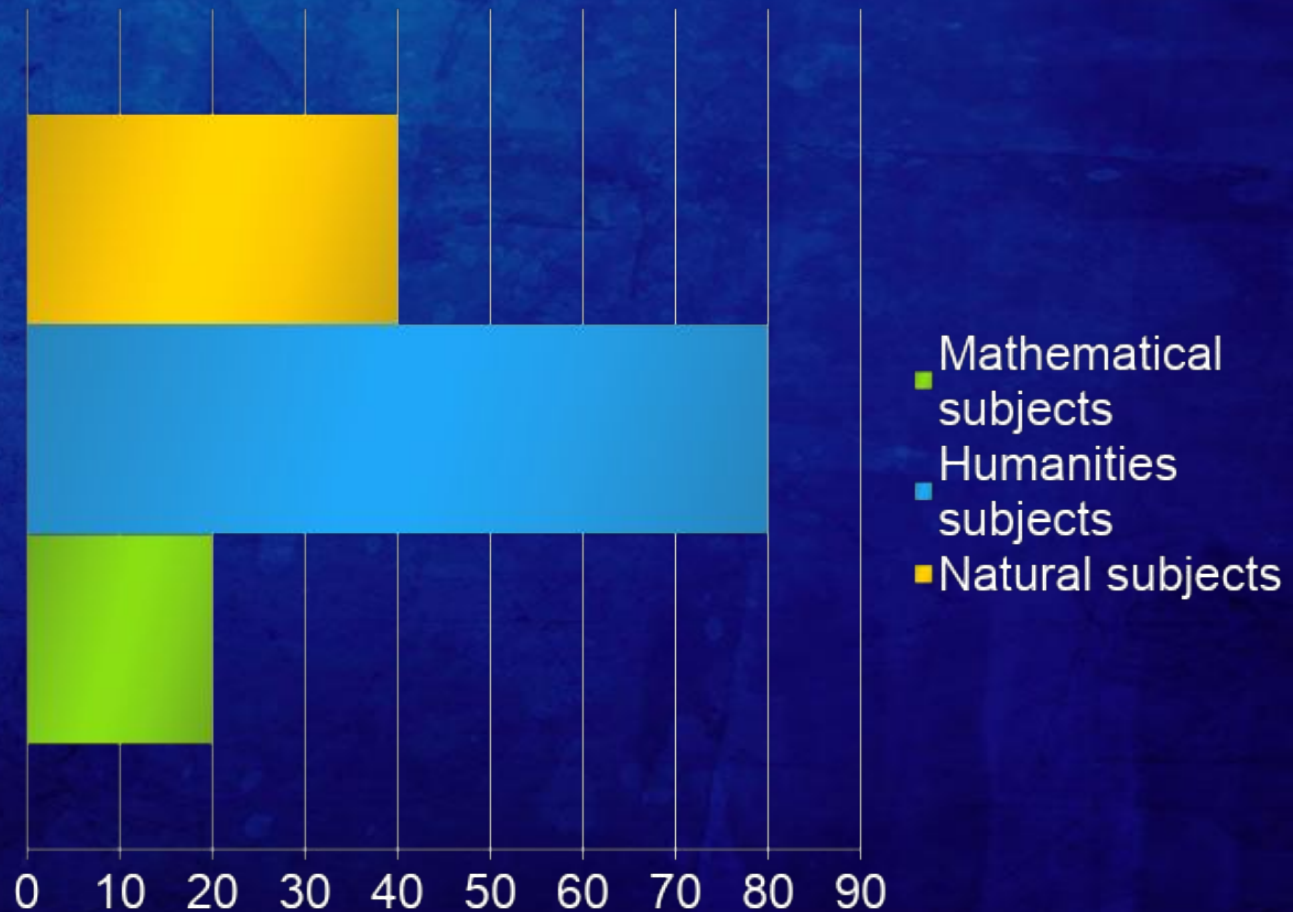

Humanities subjects are the Ukrainian language and literature, world literature, English, history, psychology.

The level of knowledge of groups of subjects

THE ACTIVITY OF OUR CLASS IN SCHOOL SUBJECTS

QUESTIONS

- ▶ Are you surprised by any of the search?
- ▶ What subjects are more interesting for you? Why?
- ▶ Who knows the subjects better in our class (girls or boys)?
- ▶ What subjects does the Humanities group include?
- ▶ What are the Mathematical subjects?
- ▶ What are the Natural subjects?
- ▶ Who knows any of these subjects better?

The background is a complex, abstract composition of blue-toned images. At the top, a circular gauge with the word 'SOFTPERLA' and the website 'www.softperla.com' is visible. Below it, a magnifying glass focuses on a small, detailed object. To the right, there are glowing, fiber-optic-like structures. The overall aesthetic is high-tech and futuristic.
