Presentaion on the topic “My best friend”

Made by Dmitry Pronin 1871-21-3

My friend Andrei and I met in the school, in the first grade. In the first day in school we become friends.

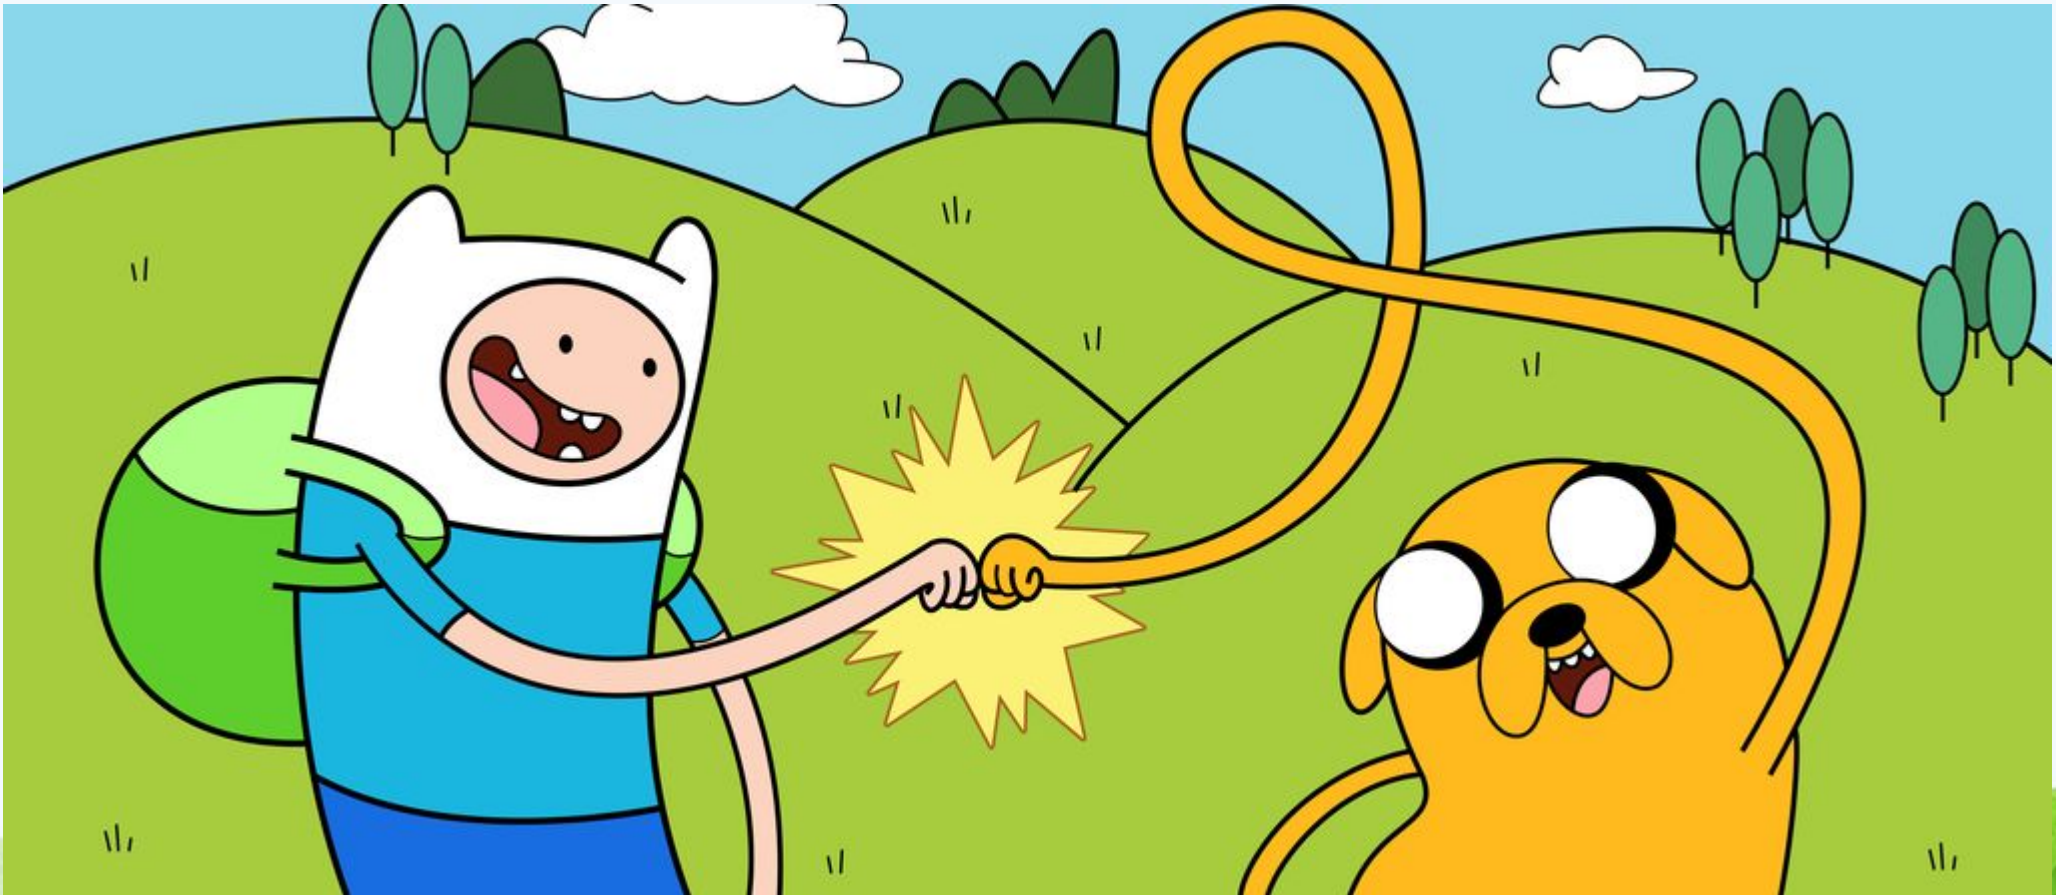

Andrei and I get on very well. We've got so much in common. I've been happy to talk with him, because he was first who talked with me.

In primary school we've been friends. In secondary school we've been friends too. We've been friends all the time. We never been in row. Fun fact: I've never fought him!

I played with him a lot. I walked with him a lot. In summer, in winter, in any season of the year. I paid for him if he been need in this because he was my best friend all the time.

He is one of the few who invited me to his birthday, invited me to visit him. He is the one of the few who supported me. He is the one of the few who made me feel a real friendship!

We went different ways. I went to the college, and he went to high school. I was very upset, because I wouldn't see him soon. He was been my almost lifelong friend.

I appreciate our friendship, I hope I can continue to be friends with him, but moving to Moscow from my hometown not give a chance for this. But he can go to Moscow in summer, so I can see him in holidays.

END of the presentation.
