Work in pairs: ask and answer

Would you like to be a fashion model?

What types of clothes are provocative in your country?

How do you feel about having to adhere to a dress-code?

What would you wear to meet royalty or the President of your country?

What item of clothing would you never wear?

1. Ever since I was a child I liked reading glossy magazines and finding out what's in fashion.
2. I must admit I've worn some excruciatingly uncomfortable shoes in the past.
3. I'd hate the idea of becoming a fashion victim.
4. Business attire needs to project a professional image, and clothing that reveals too much cleavage (for women), or your back, your chest or your midriff is not appropriate, even in a casual business setting.
5. For women, see-through fabrics should be avoided, and skirts should not be too tight or too short, though nobody wants to look frumpy. (old-fashioned and boring).
6. I would definitely wear a well-tailored, chic and formal suit. OR My best bet would be a floor-length gown, shimmery fabrics and ornate details. And I would also elevate my look with elegant jewelry, fabulous shoes and a great hairstyle.
