

Project 2.

My dream school food

.

We want to add food from
different countries of the
world

Ramen - Japanese dish with wheat noodles. In fact, it is an inexpensive fast food dish with great energy value. It is considered a dish of Chinese, Korean and Japanese cuisine.

Chicken nuggets are a traditional American dish that can be found in almost every fast food chain in the United States.

Barbecue - originally a dish of the countries of Western and Central Asia, as well as Eastern Europe, from small cut lamb, strung on a skewer and baked on charcoal in the grill; at the same time, it is possible to use marinade, from the simplest spices to complex multicomponent compositions that require special preparation.

And, in our opinion, the best dish is Shawarma. Shawarma is a dish of Arabic origin, consisting of pita bread, grilled meat, fresh vegetables and sauce. Any meat can be used, usually it is: lamb, chicken, less often - turkey or veal.
