155 kilometers of coastline of the Mesozoic era is a UNESCO World Heritage Site and covers a period of 185 million years!!! Researchers believe that more than 100 species of dinosaurs lived here! In addition to the skeleton of an ichthyosaur, it was possible to find the bones of strange animals - with a skull like a pig, and teeth like a crocodile.

A detailed illustration of Sherlock Holmes and Dr. Watson in their study. Sherlock Holmes, on the left, is seated in a red armchair, wearing a dark suit and smoking a pipe. Dr. Watson, on the right, is seated in a wooden chair, wearing a light-colored suit and holding a teacup. Between them is a small round table with a white teapot and cups. The room is filled with bookshelves, a large fireplace, and various decorative items. The text "Sherlock Homs" is overlaid in the center.
