

THE CONCEPT

"You are what you eat!" said Feuerbach in 1864, meaning that for being fit and healthy you need to eat good food and stay away from food that has unhealthy ingredients. As a group of friends who have made a habit of this idea for years, we now come up with a new concept : **"Eat it, how nature serves it to you!"**

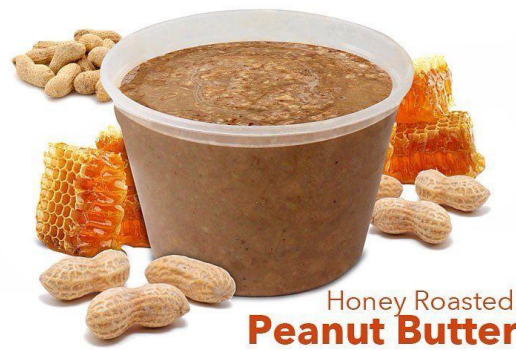

We offer foods to our customers how nature serve them to humans. If processed a little to be more tasteful, it will be how ancient people used to process, such as sun drying, fermentation, and grinding. That is very basic. Very healthy!
