

# THE TOWN OF MY DREAM

This city should not be too big, but it should include everything you need: shops, libraries, cinemas, coffee shops, gyms and other.

In the town will be many flowers and trees .  
Many parks where people can walk and  
enjoy their life.

In this town there should not be a lot of cars.  
People will ride a bikes.

Energy will be generated from wind and the Sun. It will be a clean town.

There will be parks for walking animals. People will be able to spend more time with pets.

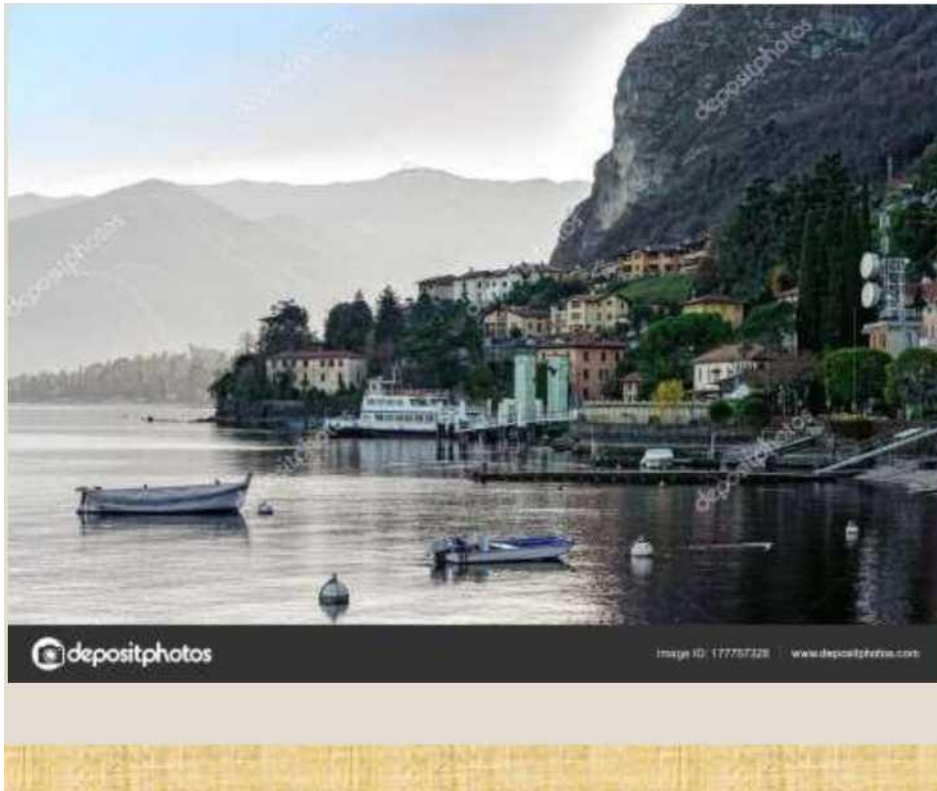

Every weekend people will be able to attend various festivals and concerts.

Now it is only a dream and maybe it will remain a dream. Or maybe such a town will be. Nobody knows

What will people do on the weekend?

How will energy be produced?

What people will ride?
