A composite image showing a person swimming in the ocean. The person's head and one arm are visible above the water. A large magnifying glass is overlaid on the image, focusing on the water surface near the swimmer's arm. The magnifying glass has a black handle and a silver rim. The water is a light blue-grey color, and the sky is a pale blue. The overall image has a slightly grainy, vintage aesthetic.

HORNIMAN'S
PURE TEA

The Pure Tea is not artificially
darkened in the leaf.
The Pure Green has no Starch
tint, being a dark olive hue.

Is choice and strong,
because it consists of the most
valuable growths that are full of
rich essential properties.

Is moderate in price,
because it is supplied direct
from the Importers to the
Consumers by Agents, to save all
intermediate profits.

Is wholesome to use,
because it is not 'faced' with
the usual powdered mineral
colors.

These advantages
have secured for this Tea a
general preference. To ensure
its reaching the purchaser at a
fixed value, it is sold in packets
at the price printed on each.

As spurious imitations are
offered, see that all are signed by

STRAWSON'S WATERPROOF,
For BOOTS AND SHOES, Price 1s.

This composition will be found the best ever brought before

dressed with this composition will resist all damp from wet

as long as any others.

"Dear Sir,—I beg to tell you that I constantly apply
Waterproof Composition to my boots, and am so satisfied
of its usefulness that I frequently recommend it to my friends.
The least of its valuable qualities is, that it prevents leather
from getting dry and hard. I have dressed with your Compo-
sition eight or ten months since. I am so satisfied of its use-
fulness that I have written you a line to let you know of my
opinion as to the merits of your Composition. I am, dear
Sir, very faithfully yours,
JAMES STRAWSON, M.D.

"Mr. Strawson.

"Sir,—I have much pleasure in testifying to the value of your
Waterproof Composition. I have used it for the last three or
four years with the most complete success. Having resolved
to test the value of your Composition, I had a pair of boots made
very thin, dressed twice with the Composition, and walked
in them for some hours through fields of turnips, and
long wet grass, and returned home with my feet perfectly dry.
I can with confidence assert that no one makes the least use of
any other dressing, as well as perfectly waterproof, and I
generally recommend it to gentlemen for whom I make boots for
shooting, fishing, &c., as being the best that I have ever tried.
