HORNIMAN'S PURE TEA

The Pure Black is not artificially darkened in the leaf. The Pure Green has no Starch tint, being a dark olive Tea.

Is choice and strong, because it consists of the most valuable growths that are full of rich essential properties.

Is moderate in price, because it is supplied direct from the Importers to the Consumers by Agents, to save all intermediate profits.

Is wholesome to use, because it is not 'faced' with the usual powdered mineral colors.

These advantages have secured for this Tea a general preference. To ensure its reaching the purchaser at a good value, it is sold in packets at the price printed on each.

As a spurious article is offered, see that the name is prominent on the wrapper.

"Dear Sir,—I beg to tell you that I constantly apply your Waterproof Composition to my boots, and am so satisfied of its usefulness that I frequently recommend it to my friends; and not the least of its valuable qualities is, that it prevents leather from getting dry and hard. I have dressed with your Composition eight or ten months since, and the leather is as soft as a piece of the finest kid. You are, I am, do as I do, very faithfully yours,
 JOHN STANLEY WREN, M.R.C.S."

"Mr. Strawson."
 "Dear Sir,—I have much pleasure in testifying to the value of your Waterproof for leather, which I have used for the last three or four years with the most complete success. Having resolved to submit to the test of experience, I had a pair of boots made of very thin leather, dressed twice with the Composition, and walked in them for some hours through fields of turnips and long wet grass, and returned home with my feet perfectly dry. I can with confidence assert that its use makes the leather softer and more durable, as well as perfectly waterproof, and I generally recommend it to gentlemen for whom I make boots for shooting, fishing, &c., as being the best thing of the kind I have ever tried. (Signed) GEORGE BISHOP."

HORNIMAN'S PURE TEA
The Pure Black is not artificially darkened in the leaf. The Pure Green has no Starch tint, being a dark olive hue.
Is choice and strong, because it consists of the most valuable growths that are full of rich essential properties.
Is moderate in price, because it is supplied direct from the Importers to the Consumers by Agents, to save all intermediate profits.
Is wholesome to use, because it is not 'faced' with the usual powdered mineral colors.
These advantages have secured for this Tea a general preference. To ensure its reaching the purchaser at a good value, it is sold in packets at the price printed on each, 3s. 4d., 3s. 6d., 4s., & 4s. 6d. per lb.
As spurious imitations are offered, see that all are signed by
