

Tour around London London Eye

Hi, I am Marina. Today we are going to visit London Eye.

The London Eye is one of the largest Ferris wheels in the world, its height is 135 meters.

More than three million people visit London Eye every year. The London Eye can carry up to 800 people in one lap.

The view of London will open right in front of you. You can see Big Ben and the Palace of Westminster up close.

It is advisable to ride the London Eye in the evening, when the lights start turning on in the city.
