MUSEUM OF CONTEMPORARY ART (MAC):

- Located on the historical site of Olinda, the Museum of Contemporary Art of Pernambuco (MAC-PE) was inaugurated on December 23, 1966, with the donation of part of the Collection of Ambassador Assis Chateaubriand to the State. Today the museum has a collection of more than 4 thousand works of the most varied techniques, epochs and styles, ranging from French academicism to contemporaneity.

- The MAC-PE is housed in a building listed by the National Historical and Artistic Heritage (IPHAN), because it was the former House of Chamber and Public Chain of the Municipality of Olinda. The building, dating from 1765, was designed to be the Aljube of the Diocese, being during all the period of the Inquisition the only ecclesiastical prison that has been in the history of Brazil.

- In it, an ecclesiastical jail was used for the collection of persons accused of crimes against the Roman Catholic religion. In this building, the museum's headquarters now houses works belonging to the MAC-PE collection, composed of fifteen collections. In addition to its headquarters, the Admiralty Chapel of St. Peter, the Assis Chateaubriand Square (both in front of its headquarters), the Technical Reserve House and the Tereza Costa Rêgo Art Gallery are part of its Cultural Complex. The latter is destined for temporary exhibitions of Pernambucan artists, national and international.

MIRABILANDIA :

- Mirabilandia is the only fixed amusement park in the Northeast. It's located between Recife and Olinda. Its area is 57,000 m². Mirabilandia operates three traveling parks in Brazil, called Universal park, Golden park and American park.

- Mirabilandia is an amusement park located in the Brazilian state of Pernambuco. Opened in 2002, today it's one of the most successful amusement parks in Brazil. Resulting from a partnership between the peixoto group and an Italian group, the operation began with 15 rides and 1 coaster, but today features more than 30 attractions, and is the Brazilian park which made the largest investment by buying new attractions. The Mirabilandia of Pernambuco is the only fixed amusement park in the entire Northeast of Brazil. The park features 35 attractions in categories frightening, radical, and family.

- In addition, the park has several themes such as "Fazendinha Mirabilandia", "The Gardens", and "Rio das Pedras" which has the objective of raising ecological and nature awareness. As of 2012, the park is being expanded due to high demand.

ATTRACTIONS :

- The park has 35 attractions, not counting games and contests, which are paid separately.

As the Mirabilandia uses a rotation system of attractions with the other two traveling parks, Universal Park and Golden Park, rides vary from season to season (except the coasters) .

One of the great attractions of the park is the roller coaster Super Tornado Dutch company Vekoma which was bought at a fair value of the Luna Park when the rollercoaster was covered with rust, but the park has been reformed and is now in full operation.
