- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

# BIG CONCEPT

## In two or three columns

### Yellow

### Blue

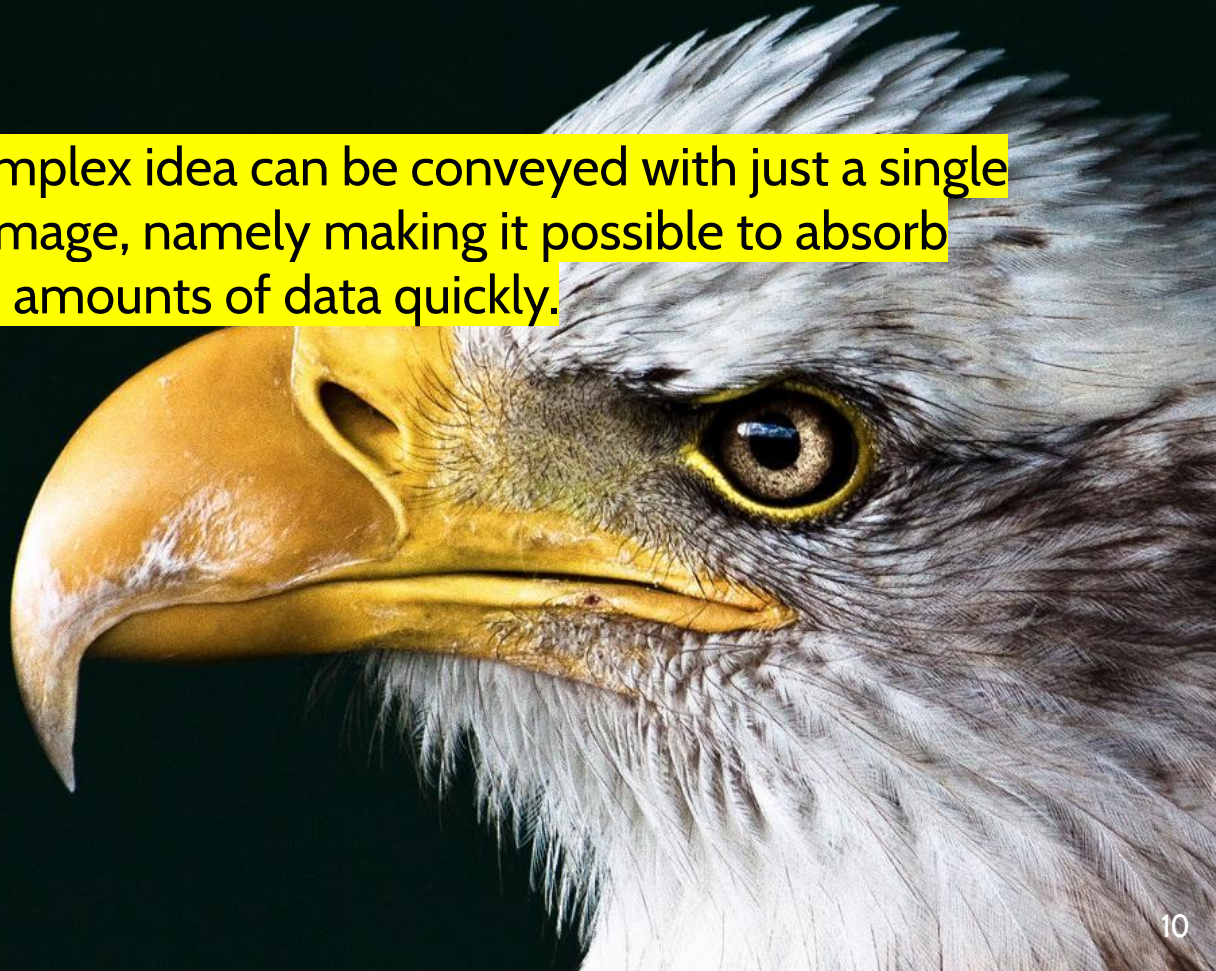

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

### Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

**A picture is  
worth a

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

A photograph of two seagulls in flight against a clear, bright blue sky. The seagull in the foreground is larger, with its wings fully extended, showing the intricate structure of the feathers. It has a white body, a red beak, and red webbed feet. The second seagull is smaller and positioned further away in the upper right, also in flight. The overall composition is clean and minimalist, emphasizing the birds and the vastness of the sky.
