

# Honesty is always best policy РКЗ 1 бал

- Введение +-
  - Honesty is one of the most appreciated human qualities. Some people believe that telling the truth is always the best way of dealing with people, while others hold an **opposite** (opposing/ different) view.  
Telling the truth ‘ только один аспект честности (сужает проблему)
- Honesty – to be honest
- Аспекты Honesty – faithfulness/ truthfulness/ openness and trust / to be frank / open-heartedness ( в ряду синонимов есть но у каждого своё отенок )

# Мнение автора +-

- In my opinion, honesty is always the best policy. (+)
- Firstly, if a person is tended to develop communication with other people based on the truth, he or she (they) can count on honesty in return (это не совсем точный аргумент – так как не отвечает на вопрос почему honesty – the best policy)
- Secondly, an honest person **is much more succeeded** (is more successful ) in building any kinds of relationships, because, for example, friendship and love cannot exist without honesty. (+)

# Мнение оппонента -

- However, there are people who believe that the truth is not always relevant (-) . Проблема ложь (правда) а нам нужно исходить из Honesty is not the best policy
- They claim that sometimes lying is the best way to avoid hurting someone's feelings (- сужена проблем- можно бы использовать как пример к предложению ниже ) .
- There are situations when dishonesty can help not to lead to quarrels with close people and not get them upset (+ ) можно использовать как аргумент но в параграфе нет ответа почему Honesty is not the best policy (а что тогда the best policy - dishonesty? Не совсем логичный ВЫХОД

# Опровержение +

- Personally, i disagree with above-mentioned opinion. A long-term lie can be much more harmful to feelings, because any untruth will be uncovered anyway and can lead to full break-up with people who trust you. Rebuilding former relationships may not be possible

## Заклучение +

- To sum up, although all opinions have the right to exist, I still believe that being honest with others is always best policy.
