The human brain is the most complex and remarkable organ of the body. It controls sereryhing we do thinkking, learning, and even heart rate. Thought the brain makes up only 2 percent of the body's weight, it uses around 20 percent of its energy. It works 24 hours a day. Even when a person is sleeping, the brain is working hard to keep other organs functioning, Most people think that our brain is more active during the daytime because it needs to deal with a great amount of information. In fact, that's not true. The brain is far more active when a person is sleeping! However, scientists don't yet have any explanation for this fact.

## Задание 12 № 2867

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов A-F содержатся ответы на интересующие Вас вопросы 1-7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. What is the essential piece of uniform?
2. How can one choose the place to learn?
3. How do people continue keeping the tradition?
4. Why is it never too late to learn?
5. How does "learn and play" technique work in the Dublin College of English?
6. What are the advantages of learning together?
7. Which subject is less popular?
A. Christ's Hospital school was founded in the 16th century. Its uniform at that time consisted of a long blue coat, a leather belt and yellow socks. Today students still wear the same uniform because they think it's a symbol that unites them. There was some talk about making the uniform more modern but it was decided to keep the original uniform.
B. The Dublin College of English offers one, two or three week Football and English Programmes. They are for young people who are interested in both learning English with native speakers and practising football. The students enjoy the friendly, inspiring atmosphere in the classrooms, after which they improve their skills on the school football pitch.
C. Harrow is a prestigious boys' school in northern London with a strict uniform policy. You can easily recognise a Harrow student by his hat, which is part of the uniform. All boys have to wear their hats every day when going to or from lessons. Some students are allowed to wear a different scarf, tie or jumper but the hat should always be there. Wearing it remains a must.
D. One of the recent trends is the growing number of elderly students in universities and colleges. It is believed that the elderly and the young can benefit from studying in a mixed class. The older ones are quicker at detailed and logical tasks. On the other hand, younger students can often help their older classmates with new gadgets and technologies.
E. When it comes to studying English abroad, try to get as much information about the school as possible. Asking the right questions will help you save money, time, and avoid culture shock. Remember that the school should provide you both with good teaching and with an unforgettable experience so besides everyday classes, social activities should be part of the programme.
F. In most British schools children start studying a foreign language at 11 , but many are happy to give up languages completely at 14. Research suggests that students think that it is more difficult to get good marks in Modern Foreign Languages than in other subjects such as Science or History. They also say that foreign languages are less fun than other lessons like PE or Art.
