Sokolova  
Nikolaeva

We are Sarah Webster and Prince Ray.

Today we are going to talk about our proposal for a new resort on the island.

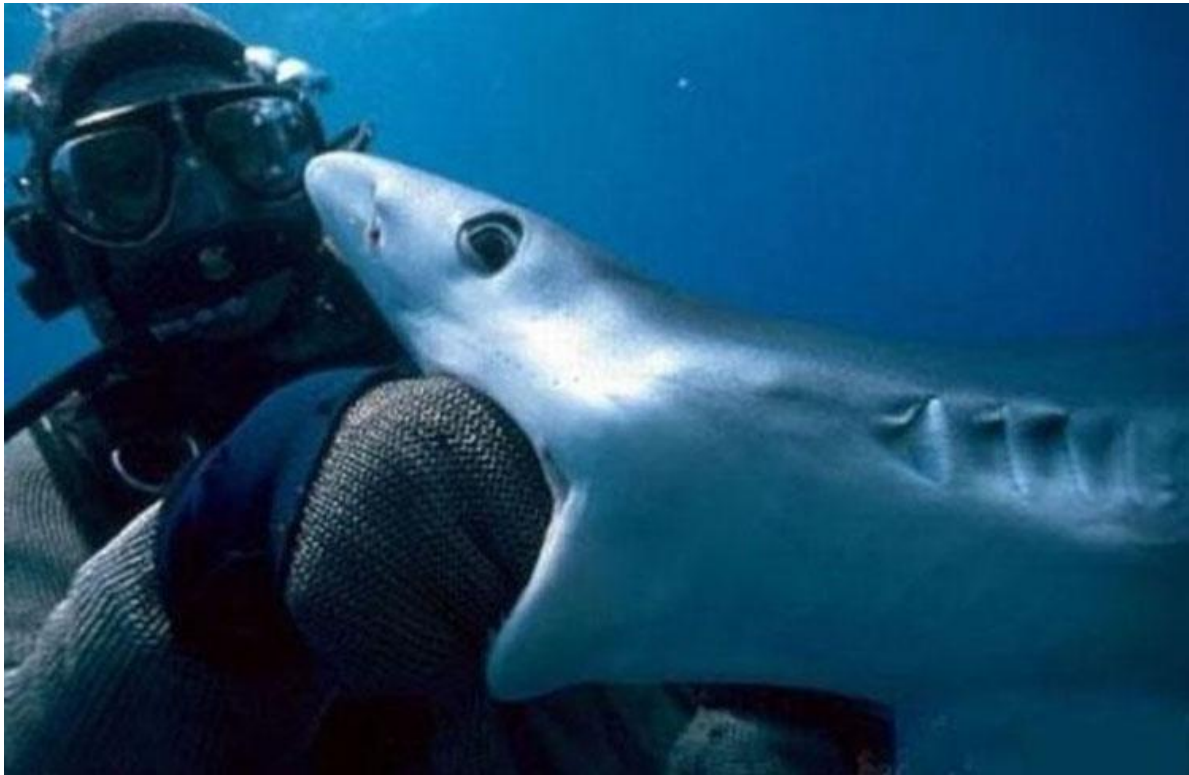

The mainly it is going to locate in Mexico. First of all, we d like to talk about the location of the new resort. Then we will talk about how tourist will get to the island.

Finally, we will talk about accommodation.

# How will visitors get to our island?

We plan to make a beach because tourists will need to swim to on their own to get to the island.

**We are not responsible of your security!**

# Attraction

We are also going to built a house with will be easy to rebuilt. It going to be an attraction.

We will set fire to the house and tourist will need to escape from there and who will be the first is the winner.

**We are not responsible  
for your lives!**

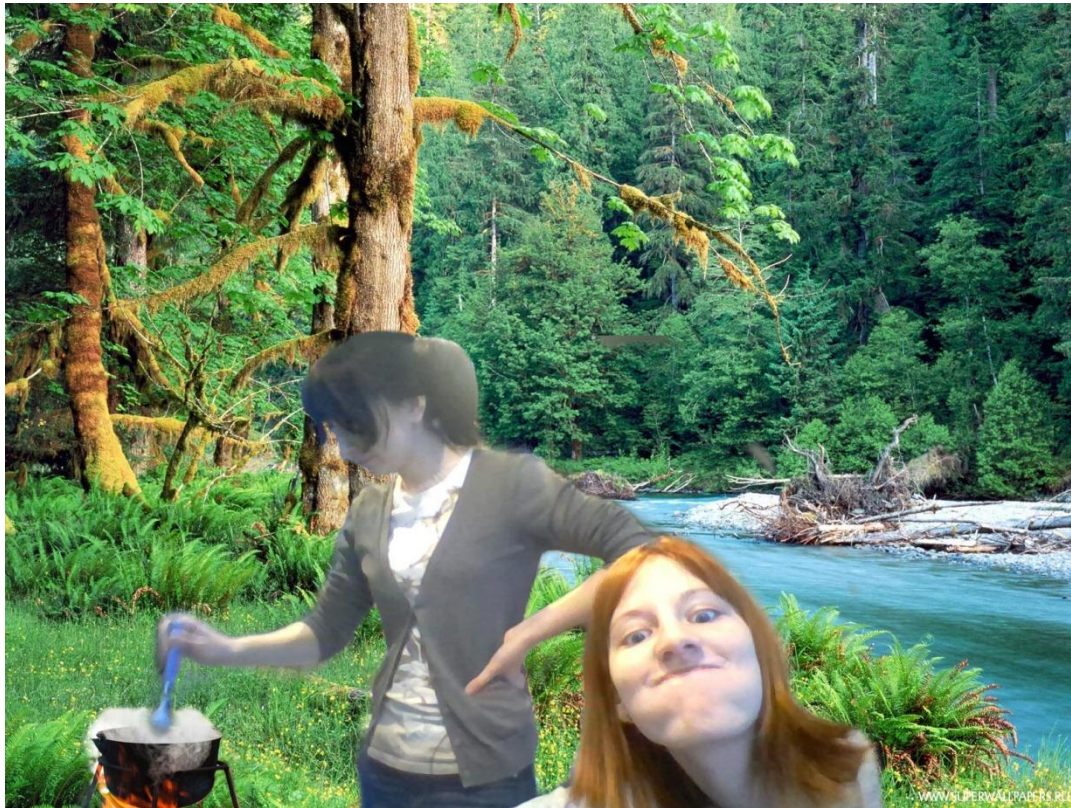

# Accommodation

We are going to use a teepee as accommodation with you need to put up.

# Food

The food you can choose from the bow and the gun go hutting. If you are afraid you can go fishing.

**This rule does not apply to us!**

The first 1000 of tourists will get free sombreros!

To sum up, it is all for our dream to built the
