Oslo's music scene is striking in its diversity. Thousands of concerts are held annually in the capital's clubs, and international stars come to major events.

Viking Ship Museum

- Each ship is housed in a separate room. In addition to ships, you can see various exhibits of the Viking era in the museum: carts, beds, vessels, sledges.³

The most popular and exotic cheese in Norwegian cuisine is brunost. It has a pleasant brownish yellow tint. This is a caramelized cheese made from whey. It tastes like a slightly salty boiled condensed milk. It is often served for dessert.
