

SCANIA TOURING ETS2 MOD

Here, I'm going to show you about this mod. Especially how to use mod.

Firstly, I wanna tell you that this mod has not finished yet, actually this mod is almost done. I gave everything to be able to finish this mod quickly.

Unfortunately, my computer wont boot and I still have to go to college (finish my semester). So I cant keep this mod in my google drive anymore. It would be better if release this soon.

You will surely find the bugs in my mod, because like I said before that this mod is not finished yet.

This is a free mod. but I hope you donate me to encourage the spirit in updating this mod.

i please ask everyone to support me, it makes me feel that you are really respect to me not only love my mod. I don't want this mod claimed by other player, because I do know how does it feels (I feel like a few people who really support me)
I apologize for keeping this mod quite long.

Thank you in advance

PLEASE

Don't reupload

Don't claim

Don't modify

*you can still add your own skin

How to use

Put scaniatouring_mhusni.scs and skinpack_scaniatouring.scs into Documents/Euro Truck Simulator 2/mod
Active it in mod manager

This mod work perfectly in ETS2 1.31

For changing to UK or EU version you have to change it in CABIN.
*your skin must be stock to change cabin version (EU or UK)
