Imagine you are the person in the picture. Listen to the music and imagine the scene. What can you see, hear, touch, taste, smell? How do you feel?

All around me I can see ice and mountains. The sky is grey but I can see far into the distance. Everything is grey and white. I hear the sound of my heart beating – otherwise there is silence. My feet touch the side of the mountain and I hang there. I feel the weight of my body and I wonder how much longer I'll be able to hold on. I taste the ice-cold water from the icicles around me. I smell the fresh mountain air as it goes into my lungs. I feel exhausted and extremely frightened.

1 a large, deep crack in thick ice or rock

Everything was fine on the way up the mountain and we weren't expecting to have any problems at all on the way down. You see, we chose an easier route for our descent.

and Joe

That must have been painful!

Extremely. So, Simon tried to get me down the mountain using a rope. But that didn't work very well as it was already getting dark and before long, I was hanging over the edge of a deep crevasse. I couldn't climb back up the rope as my fingers were so frostbitten. I called out to Simon but he couldn't hear me - I was too far away.

I made the most difficult decision in my life. I cut the rope to save my own life. I just knew I didn't have the strength to hold on to Joe any longer.

nd Joe

What an amazing story! What courage and strength! So, for all of you listeners out there - anything is possible!

Yes, that's right. But miraculously, I wasn't killed by the fall. I was in great pain and had no food or water, yet I was determined to stay alive. It took me four days but I managed to get down to safety.

In reality, I had no choice. Dying on the mountain was not an option when I had so much to live for. The nights were the worst. That's when the cold, the pain, the lack of food and the despair take over. I knew that if I closed my eyes to get just a little rest, then I might never open them again. I can't tell you how I felt when I saw the rescuers running towards me but the sense of relief was so overwhelming that at that point I blacked out.

Words of Wisdom

Man cannot discover new oceans unless he has the courage to lose sight of the shore.

(André Gide, French writer)

I agree with the quote that in order to move forward we often have to let go of our previous ways of thinking and be open-minded to new possibilities and ideas.

Yes, It's important to have courage and look to the future. We should not forget the past, but be careful not to become stuck there.
