

My opinion about franchise

**SAW**

## SAW

This franchise is about a man who has cancer. John Kramer got sick due to the mistake of a doctor who mixed up the pictures.

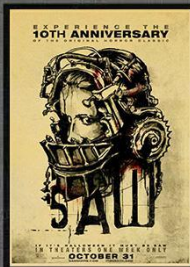

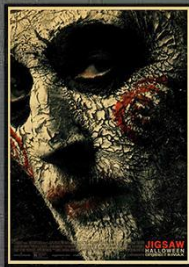

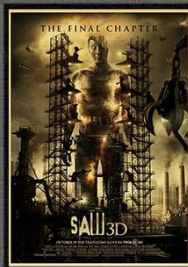

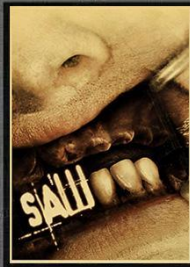

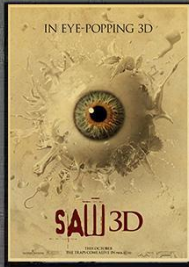

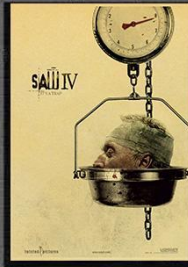

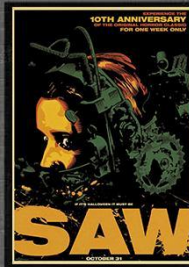

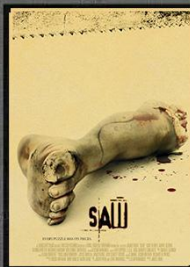

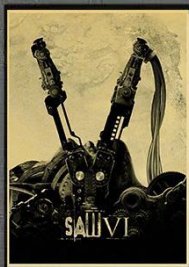

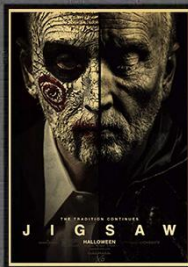

The disease progressed, he turned to another doctor who diagnosed an inoperable brain tumor.

He decided to commit suicide, but survived and realized that every moment of life should be appreciated.

He created his own philosophy, and its incentives sounded like "the one who does not value life, he is not worthy of life."

My favorite character in the film is John Kramer, he is a very wise man, cunning and, despite his age, can manipulate people.

In this franchise wonderful special effects and CGI. First film Saw "Survival Game" was released in 2004. Cast in this movie good and varied.

I think that films are interesting  
but in this franchise a lot of blood.  
And not everyone will be pleased to watch  
these films
