

* Oil and gas industry in great Britain

Oil production and refining

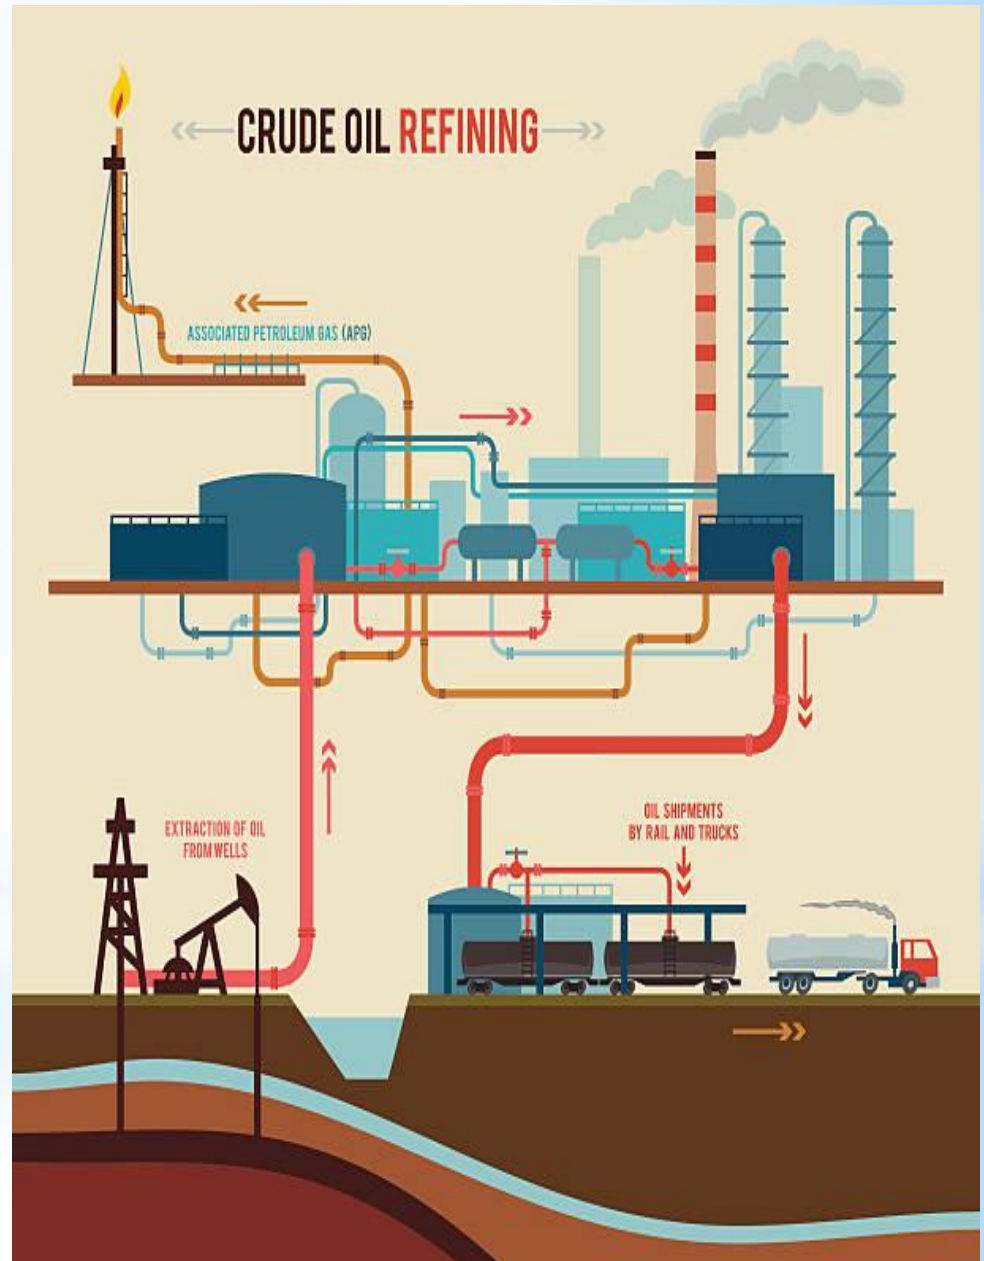

Oil production
in the North
sea has been
conducted
since 1975,
the
largest-Brent,
Fortis

In 2003, it amounted to 106 million tons, of which more than half went for export — mainly to the United States, Germany, the Netherlands

Газовая промышленность

In the British
zone of the
North sea
discovered
more than 80
gas fields
