

## UFO LED High Bay Lights Fine Points

These lights are the best lights you can give to your warehouse.  
It's best option for your warehouse if the ceiling height is more than 13ft.

The UFO LED high bay lights are perfect for replacing the conventional light fixtures used inside large commercial premises.

These light fixtures are generally shaped like unidentified flying objects (UFOs) and deliver highly bright illumination.

Before (400W High Pressure Sodium)

After (150W LED)

The UFO LED high bay lights are specially designed for high ceilings and illuminate a vast space.

## Areas of application

- Large warehouses
- Manufacturing facilities
- Aircraft hangers

## Features

- Ultra wide angle lens for better illumination
- Higher IP ratings for better durability
- Standard UL and DLC certifications
- Operational lifespan up to 50,000 hours
- Optional attachments - Compatible dimmers
