

# FOOTBALL AS A HOBBY

Presentation was done by Vasiliy Smirnov  
from 101 group

I like both playing football and watching it,  
discussing matches, players, coaches and  
referees

I have many awards and achievements, I even  
wanted to become a professional football  
player

From the age of sixteen , I stopped actively training and started playing football just for myself

Sometimes on weekends and holidays, my friends and I get together and watch football

Football is one of the most popular games in the world
