

FOOTBALL AS A HOBBY

Presentation was done by Vasilii Smirnov
from 101 group

I like both playing football and watching it,
discussing matches, players, coaches and
referees

I have many awards and achievements, I even wanted to become a professional football player

From the age of sixteen , I stopped actively training and started playing football just for myself

Sometimes on weekends and holidays, my friends and I get together and watch football

Football is one of the most popular games in the world
