

Wild exotic animals should not be kept as pets -0 баллов по РКЗ.

- 0 Введение + -
- 0 Nowadays a lot of people have pets. Some people think that it is wrong to keep (wild) exotic animals at home as pets, while others believe that unique species of animals can become people's companions.
- 0 Грамматический перифраз
- 0 Вторая точка зрения – не по условию – есть риск что 3 параграф будет снижен unique species of animals can become people's companions – можно использовать как аргумент

Мнение автора +-

- 0 In my opinion, wild exotic animals should not be kept as pets (+). Firstly, wild animals have to live in special conditions which are not common with conditions at people's homes. There are some conditions which a person cannot provide an animal with (+), ~~that is why exotic animals cannot be pets.~~
- 0 Secondly, exotic animals are unpredictable. These animals may be dangerous and can hurt people (+- представлен широко – нужно точно указать в доме человека) ~~So, wild animals should not be domesticated.~~
- 0 Два раза представлен вывод – что занимает место (и по организации вывод в заключении)

Мнение оппонента -

Nevertheless, some people think that exotic species of animals can be allowed to be kept as pets (+- по логике - глагол to allow)

Wild animals can be **domesticated**, especially if people have baby animals which do not **have an idea of living** in wildlife (-)

размышление о возможности жить с позиции животного – а по условию человеку следует – разумно держать wild animal в доме или нет – возможность to domesticate wild animals тоже совсем другой аспект представляет – что и по логике не совсем точно)

~~So~~, even a wild animal may become a pet if a person keeps/has adopted it since its birth (-) – представлен вывод – может ли стать питомцем a wild animal? По условию вопрос Is it right/sensible/good to keep wild exotic animals at home? Нужно представить как аргумент!

В аргументах потеряно ключевое слово exotic

VERB

When people **domesticate** wild animals or plants, they bring them under control and use them to produce food or as pets.

We domesticated the dog to help us with hunting. [VERB noun] 

...sheep, cattle, horses, and other domesticated animals. [VERB-ed] 

Опровержение -

- o Though the opposing opinion may seem quite reasonable, I still disagree with it. All animals have instincts and domesticating wild animals can cause unfortunate results (опровержение есть – но не по другой проблеме – domestication of wild animals)
~~So~~, keeping exotic animals at home amounts to holding them in captivity, which should not be allowed – опять представлен вывод (как контраргумент не проходит)
- o Linking words!!!

Заключение -

0

In conclusion, I would like to restate my point of view. People should not be cruel and should let animals live in wildlife if animals are not supposed to live at people's homes.

0 Появилась мысль о жестокости по отношению к животным! Не представлено мнение автора
