Introduction:

1. My view about this trip to London and some tips to person who has never been to London before.(As me few weeks ago).....3

2. Diversity of places that we had visited. (Pictures and stories).....4

3. Conclusion.....16

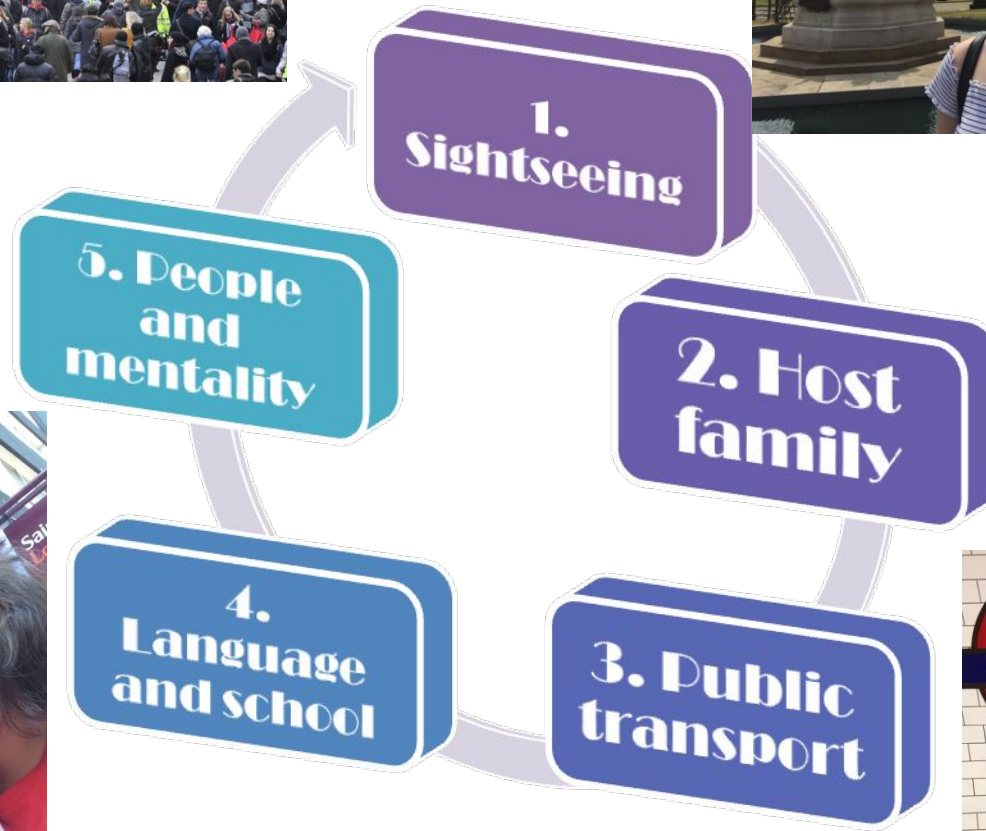

Chapter 1: My view about London and some tips to the novices.

My name is Alina and from now I am your personal video guide on a beautiful London with every corner of its sidewalks and even the smell. I will tell you everything about this city and even the expectation VS reality in London.

This Holidays were full of impression, laugh, happiness, inspiration and motivation but sometimes even disappointment.

Chapter 2: Diversity of places.

Chapter 2.1: Sightseeing.

So, in my excursion you will find the most unique information about London. Let's start our walk. Tip: Don't forget that Big Ben is on reconstruction.

For 14 days I've seen almost all of the attractive places in London from the Buckingham palace to the skyscrapers and with confidence I can say that this city is worth visiting.

Chapter 2.2: Host family.

As young teenagers we didn't know anything about the host families. Tip: you have to remember that these «moms and dads» sign a contract which contains diversity of rules and other difficult stuff that you have no right to violate, otherwise you will simply be reported from the country (you better follow and do everything that your host family said).

Chapter 2.3: Public transport.

Don't forget that London is divided into 9 zones. Pay attention on your travel card. If you are in 4th zone but your ticket is only for the 1st 2nd and 3rd you will have to pay for the fare (about 5 GBP).

- Our way to school:
- Walk to the bus station- 5 min
 - Bus ride №332- 20min
 - Way to the Kilburn station- 5 min
 - Train ride on Jubilee line- 15 min
 - Transfer to the central line- 10 min
 - Walk to school- 15 min
- In total: 1h 10min

Usually in our trip we were using the tube to move around and I will tell you one thing: transport in London it's the easiest thing to understand. But there is one problem- houses in the UK look so similar and it's so easy to get lost. Be careful.

Chapter 2.4: Language and school.

Description of our school:

Inside this school is quite small but it has 4 floors. It's worth noting, you can use Wi-Fi only on 1 of them. You can also use a computer if you need, for example, book a ticket or to make a reservation in any museum. etc.

Our usual day at school:

- Lessons start at 8.45 and end at 12.15.
- Everyday you have 3 lessons that last for 45 min
- On the break you can chat with friends from other countries
- The best thing is teachers- they give you a freedom and it means a choice. They understand that this is your life and only you decide what to do next.

Chapter 2.5: People and mentality.

At first sight you can think that people in London are so friendly and polite. It's true but if you ask them again they will make you feel that: «You better don't interrupt me anymore, please». The real truth is that Londoners are always saying «sorry, excuse me». To be honest, if you get lost you will find your home on 99%.

We had that situation and went 7 km to be home (that's why write down everything that your host mom said). During the whole trip we asked about 60 British people and EVERYONE had helped us.

Conclusion.

I just wanna say THANK YOU everyone who've made my dream real. To my relatives that paid for this trip, to my friends who were with me to support me and to share our emotions, to our group leaders who brought us home in safe and sound, to London that gave me a lot of opportunities: to dream, to learn, to believe that absolutely everything in this world is possible we just need to try a little bit more.

THANK YOU FOR ATTENTION!
