

MyReal work

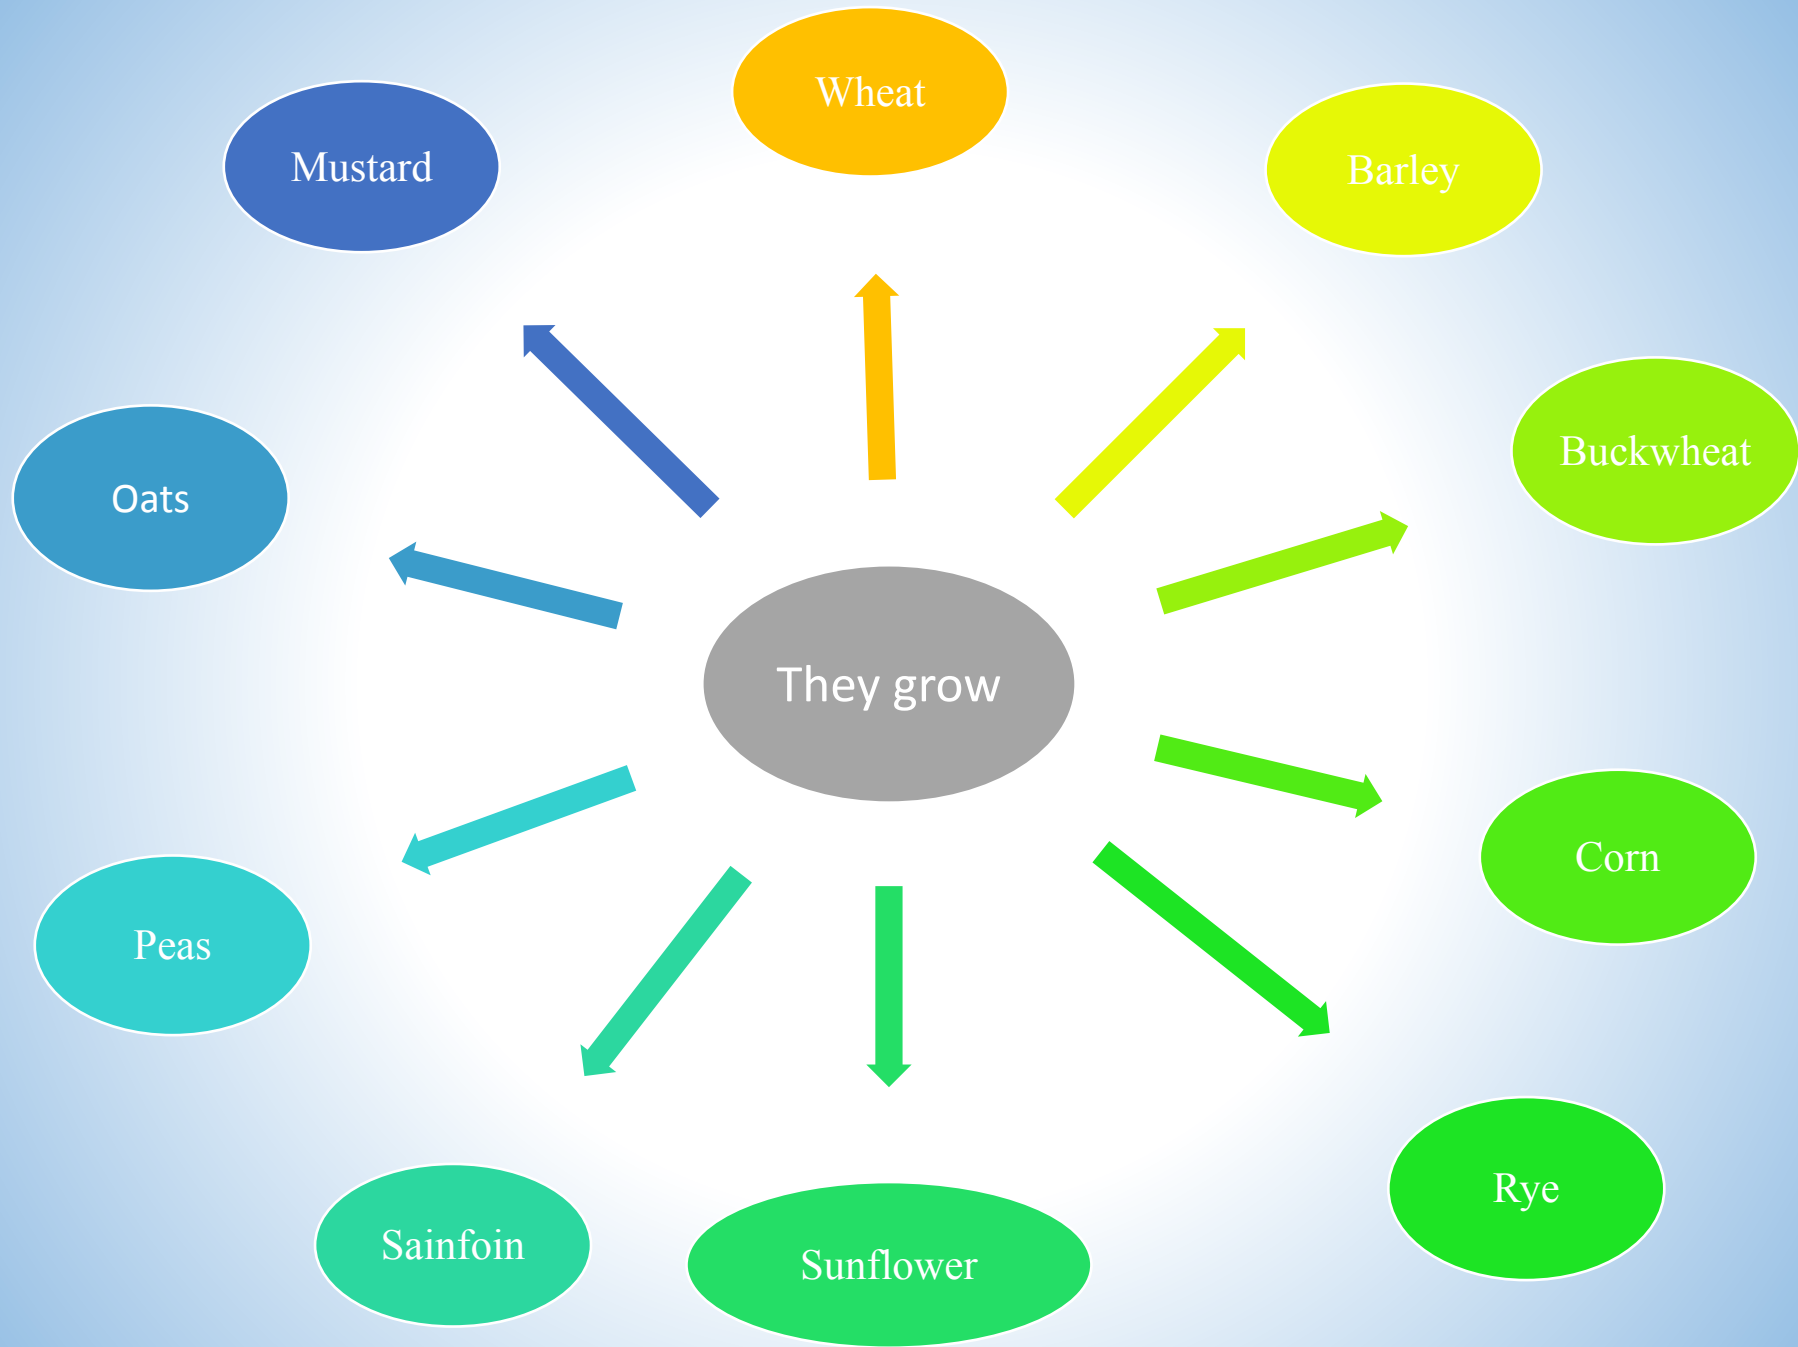

Performed student 311M group – Kachalkin I.
Checked- Dmitrieva S.

My real job

ООО «СПК Барановский»

- Foundation of the company—two thousand and two
- Regions of operation— Ul'yanovsk region
- The number of employees— seven ten and there people

Plant growing is one of the activities of the SPK Baranovsky company

Today the company owns and processes more than 4500 hectares of land

Future vacancy-agricultural engineer

Duties of an agricultural engineer:

1. Improving production efficiency and labor productivity
2. Development of measures for reconstruction and modernization
3. Organization of work on creation of new competitive types of products
4. Manage the activities of the company's technical services etc

I work on agricultural machinery –on a combine harvester and front loader

A little about yourself

- I am fond of snowboarding, the study of technical literature, the development of IT technologies.
- My hobby is listening to hard music.
