

# Земляные работы подсчет объемов котлована

Условные обозначения:

- $\frac{5,00}{5,20}$  или  $\frac{1,00}{1,20}$  проект. — расстояния от оси до верхней или нижней бровки котлована;  
фактич.  
 $+0,04 \dots -0,02$  — отклонения дна котлована от проекта;  
 $\frac{-5,40}{\sqrt{20,85}}$  — проектная глубина и отметка котлована;  
 $\equiv \equiv \equiv$  — граница изменения проектных отметок;  
 $\bullet 23,62$  — отметка верхней бровки котлована
