# Restore Wallet

Please, type your 12 seed words here

To restore your wallet, please provide the same 12 words that you wrote on paper when you created your wallet the first time. If you enter a different sequence of words, a new empty wallet will be created.

9:41 AM

# Import Wallet

Address

Private key

If you have the private key and address of your wallet you can import it here but keep in mind that BitCAD Wallet operates with mnemonic primarily.

9:41 AM

# Create Seed

can point soap gorilla indoor choice  
discover wish main symbol item action

You can always access your words by  
accessing the backup on the app settings

The seed key is a human-readable representation of your wallet. Those  
words, in that exact order, can be used to re-create your wallet.
